## The Foundation for a Superb D.I.Y. Pistol - Ergonomically Enhanced for Excellent Control

Our Iron Sight Slide for Glock 17® Gen3 enables you to build a custom Glock®-style pistol - or rebuild an old one - with a slide that sports distinctive customized cocking serrations. The unique front serrations aid in manipulating the slide under stress, especially for quick chamber checks AND for clearing the occasional jam. Both the front and rear serrations are cut to the same depth as the Glock® factory slide serrations to ensure no loss in overall slide rigidity. The top edges and the front around the muzzle area are chamfered to reduce the risk of snagging on clothing and to make holstering the pistol easier. Like all Brownells slides, the Iron Sight model for Gen3 Glock® 17 is precision machined from solid 17-4 stainless steel billet to factory specifications inside so it is compatible with any factory or aftermarket Gen3 internal components. Outside, there's a Glock® factory rear sight dovetail and front sight tenon cut ready for any factory or aftermarket sights you choose. This is the perfect companion "top-half" for a custom pistol built on a Polymer80 80% frame. Accepts Gen3 Glock® 17 internal parts Sturdy machined 17-4 stainless steel Tough matte Black Nitride finish Factory cuts for iron sights Channel liner not included; please order separately (see note below) Window model available You can get your Brownells Iron Sight Slide for Gen3 Glock® 17 with a solid top and distinctive wraparound front cocking serrations - swipe your paw along the front of the slide and you can't avoid racking it. The Iron Sight slide is also available with a window cutout on top between the front side serrations. The window aids in heat dissipation to keep the barrel cool during extended fire, AND if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) it'll help your gun stand out from the matte black sameness on the firing line! Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017.

The Brownells Front Cut Slides for Glock® pistols allows any operator to build a custom Glock® style pistol from the ground up with a slide already customized with front slide serrations. Our Front Cut Slides feature a unique wraparound slide serration design that aids in weapon manipulation, especially when checking the chamber. Serrations are cut to the same depth as Glock® factory models to ensure lower slide rigidity. Models are also available with top window cutout between the front serrations. Slides start out as 17-4 stainless steel billet and are machined internally to factory specifications. Slides are compatible with any standard Glock® 17 or 19 components. The factory Glock® rear sight dovetail is machined, with a standard Glock® front sight cut at the front. Machined from 17-4 Stainless Steel Billet Heat treated & finished with a matte black nitride finish Factory internal dimensions Available for Glock® 17 or 19 pistols Available with a top window cutout at the front Factory Glock® sight cuts For Gen3 pistols Improve the functionality and performance of your Glock® 17 or 19 with the Brownells Front Cut Slides. Channel liner required for these slides. Channel liners are a press fit and require a tool to install.

# Safety Instruction Guide for Iron Sight Slide for Glock® 17 Gen 3

## Introduction

Thank you for choosing the Iron Sight Slide for Glock® 17 Gen 3 by Brownells. This guide provides essential safety instructions to ensure the safe use and handling of your product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure that the Iron Sight Slide is installed by a qualified gunsmith or knowledgeable individual.
- Always treat your firearm as if it is loaded, even if you believe it to be unloaded.
- Keep the firearm pointed in a safe direction at all times.
- Store your firearm and its components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your firearm and components for any signs of wear or damage.
- Follow all local laws and regulations regarding the use and ownership of firearms.

## Specific Safety Precautions for Use

- Use only Gen3 Glock® 17 internal parts with this slide.
- Always wear appropriate eye and ear protection when firing your firearm.
- Be aware of your surroundings when handling or firing your firearm.
- Ensure that the firearm is clear of obstructions before firing.
- Do not attempt to modify the slide or any of its components beyond the manufacturer's specifications.
- If the firearm experiences a malfunction, cease firing immediately and follow proper clearing procedures.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and the magazine is removed.
- Disassemble the Glock® 17 according to the manufacturer's instructions.
- Remove the factory slide and replace it with the Iron Sight Slide.
- Ensure that the slide is properly seated and locked in place.
- Reassemble the firearm, following the manufacturer's instructions.

### 2. Usage:

- Familiarize yourself with the operation of the slide before use.
- Always perform a function check to ensure that the slide operates smoothly.
- Use the front and rear serrations for effective slide manipulation.
- If using the window model, check that the cutout is clear of debris before firing.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Ensure that all firearm parts are disposed of in a safe and responsible manner.
- Contact local waste management authorities for specific disposal guidelines in your area.

## **Contact Information for Further Support**

For any safety inquiries or support related to the Iron Sight Slide for Glock® 17 Gen 3, please reach out to the relevant authorities or safety organizations in your area.

By following these guidelines, you can help ensure the safe and responsible use of your Iron Sight Slide. Thank you for your attention to safety.
