## The Foundation for a Superb D.I.Y. Pistol - Ergonomically Enhanced for Excellent Control

Our Iron Sight Slide for Glock 17® Gen3 enables you to build a custom Glock®-style pistol - or rebuild an old one - with a slide that sports distinctive customized cocking serrations. The unique front serrations aid in manipulating the slide under stress, especially for quick chamber checks AND for clearing the occasional jam. Both the front and rear serrations are cut to the same depth as the Glock® factory slide serrations to ensure no loss in overall slide rigidity. The top edges and the front around the muzzle area are chamfered to reduce the risk of snagging on clothing and to make holstering the pistol easier. Like all Brownells slides, the Iron Sight model for Gen3 Glock® 17 is precision machined from solid 17-4 stainless steel billet to factory specifications inside so it is compatible with any factory or aftermarket Gen3 internal components. Outside, there's a Glock® factory rear sight dovetail and front sight tenon cut ready for any factory or aftermarket sights you choose. This is the perfect companion "top-half" for a custom pistol built on a Polymer80 80% frame. Accepts Gen3 Glock® 17 internal parts Sturdy machined 17-4 stainless steel Tough matte Black Nitride finish Factory cuts for iron sights Channel liner not included; please order separately (see note below) Window model available You can get your Brownells Iron Sight Slide for Gen3 Glock® 17 with a solid top and distinctive wraparound front cocking serrations - swipe your paw along the front of the slide and you can't avoid racking it. The Iron Sight slide is also available with a window cutout on top between the front side serrations. The window aids in heat dissipation to keep the barrel cool during extended fire, AND if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) it'll help your gun stand out from the matte black sameness on the firing line! Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017.

The Brownells Front Cut Slides for Glock® pistols allows any operator to build a custom Glock® style pistol from the ground up with a slide already customized with front slide serrations. Our Front Cut Slides feature a unique wraparound slide serration design that aids in weapon manipulation, especially when checking the chamber. Serrations are cut to the same depth as Glock® factory models to ensure lower slide rigidity. Models are also available with top window cutout between the front serrations. Slides start out as 17-4 stainless steel billet and are machined internally to factory specifications. Slides are compatible with any standard Glock® 17 or 19 components. The factory Glock® rear sight dovetail is machined, with a standard Glock® front sight cut at the front. Machined from 17-4 Stainless Steel Billet Heat treated & finished with a matte black nitride finish Factory internal dimensions Available for Glock® 17 or 19 pistols Available with a top window cutout at the front Factory Glock® sight cuts For Gen3 pistols Improve the functionality and performance of your Glock® 17 or 19 with the Brownells Front Cut Slides. Channel liner required for these slides. Channel liners are a press fit and require a tool to install.

## Attributes

# Safety Instruction Guide for IRON SIGHT SLIDE FOR GLOCK® 17 GEN 3

## Introduction

Thank you for choosing the IRON SIGHT SLIDE FOR GLOCK® 17 GEN 3. This guide provides important safety information to ensure the safe use and maintenance of your product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always handle firearms with care and follow all safety protocols.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for signs of wear or damage before use.
- Report any unsafe products or incidents to the authorities.

## Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before installing or modifying any components.
- Use proper eye and ear protection when handling firearms.
- Only use compatible internal parts designed for Gen3 Glock® 17.
- Avoid using the firearm in wet or humid conditions to prevent rusting.
- Do not modify the slide or any components beyond the manufacturer's specifications.
- Be aware of your surroundings and ensure a safe shooting environment.

## Instructions for Installation and Usage

### 1. Installation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing slide from the Glock® 17 Gen3.
- Align the new Iron Sight Slide with the frame, ensuring all internal components are compatible.
- Securely attach the slide to the frame, making sure it is properly seated.
- Install the channel liner (not included) if required; it is a press fit and may require a specific tool (#777100017 recommended).
- Verify the installation by cycling the action and ensuring smooth operation.

### 2. Usage

- Familiarize yourself with the slide's features, including the front and rear serrations for operation.
- Always conduct chamber checks with the firearm pointed in a safe direction.
- When using the firearm, maintain a proper grip and stance to ensure control during firing.
- Regularly clean and maintain the slide and firearm to ensure optimal performance and safety.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the slide is damaged or no longer usable, consider recycling the materials if possible.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any inquiries or support regarding the IRON SIGHT SLIDE FOR GLOCK® 17 GEN 3, please refer to the manufacturer's contact point in the EU.

Please ensure you keep this guide for future reference and adhere to all safety instructions for your safety and the safety of others.
