FOREARM WRENCH SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the FOREARM WRENCH by Yankee Hill Machine Co., Inc. This product is designed to assist you in tightening handguard barrel nuts securely and safely. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used for its intended purpose only.
- Inspect the wrench for any signs of damage or wear before each use. Do not use if damaged.
- Keep the wrench out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves and safety goggles when using the wrench.
- Store the wrench in a dry place to prevent rust and corrosion.

Specific Safety Precautions for Use

- Ensure that the wrench is properly engaged with the indexing ring before applying torque.
- Do not exceed the recommended torque specifications for handguard barrel nuts.
- Avoid using excessive force; if the nut does not turn, check for crossthreading or obstructions.
- Do not use the wrench for any purpose other than tightening handguard barrel nuts.
- Be cautious of sharp edges on the wrench; handle with care to avoid cuts.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that the work area is clean and welllit.

2. Using the Wrench:

- Align the notched end of the wrench with the indexing ring on the handguard.
- Apply gentle pressure to ensure a secure fit.
- Gradually apply torque to tighten the barrel nut to the manufacturer's specifications.
- If necessary, use a torque wrench to ensure the correct torque is achieved.

3. PostUse:

- After use, clean the wrench with a dry cloth to remove any debris or moisture.
- Inspect the wrench for any damage and store it in a safe location.

Disposal Instructions

- Dispose of the wrench in accordance with local regulations.
- If the wrench is damaged or no longer usable, consider recycling the metal components where facilities exist.
