

# RIFLE FACTORY CRIMP DIES - LEE PRECISION 7.5X55MM SWISS FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

## Attributes

- Name: [LEE PRECISION 7.5X55MM SWISS FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100010095
- Mfr. No.: 90184
- Cartridge: 7.5 x 55 mm Swiss
- Die Style: Crimp Die
- Delivery weight: 0.181kg
- Shipping height: 36mm
- Shipping width: 84mm
- Shipping length: 117mm
- UPC: 734307901844

## **7.5X55MM SWISS FACTORY CRIMP DIE Safety Instruction Guide**

### **Introduction**

Thank you for choosing the Lee Factory Crimp Die for your reloading needs. This guide provides essential safety instructions and usage guidelines to ensure a safe and effective reloading experience. Please read this guide carefully before using the product.

### **General Safety Guidelines**

- Always handle reloading equipment with care and follow all manufacturer instructions.
- Ensure that you are using the die with the correct cartridge type (7.5 x 55 mm Swiss).
- Store the die in a secure location, out of reach of children and pets.
- Use the die only for its intended purpose. Misuse can lead to accidents or injuries.
- Regularly inspect your reloading equipment for wear or damage. Replace any damaged parts immediately.
- Use eye protection and hearing protection when reloading ammunition.
- Follow all local laws and regulations regarding ammunition reloading and storage.

### **Specific Safety Precautions for Use**

- Ensure that the reloading press is securely mounted and stable before use.
- Do not exceed the recommended load data for the 7.5 x 55 mm Swiss cartridge.
- Keep your work area clean and organized to prevent accidents.
- Avoid distractions while reloading to maintain focus and safety.
- If you experience any malfunctions or issues with the die, stop using it immediately and consult the manufacturer.

### **Instructions for Installation and Usage**

#### **1. Installation:**

- Ensure that your reloading press is turned off and unplugged.
- Attach the Lee Factory Crimp Die to your reloading press by screwing it into the 7/8"14 mounting hole.
- Tighten the die securely using a wrench, but avoid overtightening.

#### **2. Usage:**

- Prepare your cartridge cases by cleaning and inspecting them for damage.
- Insert the bullet into the case mouth and ensure proper alignment.
- Place the cartridge into the die and operate the press to apply the crimp.
- Check the crimp to ensure it is firm and secure. A proper crimp should not allow the bullet to move freely.
- Repeat the process for all cartridges, maintaining consistent pressure and technique.

### **Disposal Instructions**

- Dispose of any unused or damaged ammunition components in accordance with local regulations.
- Do not throw away reloading dies in regular household waste. Consult local waste management services.

for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support, please consult the manufacturer or your retailer for assistance. Always ensure that you are following the latest safety guidelines and practices.

By following these safety instructions, you can ensure a safe and productive reloading experience with the Lee Factory Crimp Die for the 7.5 x 55 mm Swiss cartridge. Thank you for your attention to safety.
