

50 BMG BRASS CASE - 50 BMG BRASS 20/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Safety Instruction Guide for Hornady 50 BMG Brass Case

Introduction

Thank you for choosing Hornady unprimed brass for your reloading needs. This guide provides essential safety instructions to ensure the safe use of the product in compliance with EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with all applicable local and national laws regarding the use of ammunition components.
- Store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep brass cases out of reach of children and unauthorized persons.
- Regularly check for updates on product recalls and safety alerts through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Avoid using damaged or deformed brass cases. Inspect each case before use.
- Do not exceed the recommended load data provided by reputable reloading manuals.
- Ensure that your reloading equipment is in good working condition and properly maintained.
- Be cautious when handling gunpowder and primers, as they are sensitive materials.
- Do not leave reloading equipment unattended while in use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including Hornady 50 BMG brass cases, powder, primers, and bullets.
- Read the reloading manual carefully to understand the reloading process.

2. Inspection:

- Inspect each brass case for any signs of damage or wear. Discard any cases that do not meet safety standards.

3. Reloading Process:

- Follow the steps below for reloading:
 - Clean the brass cases to remove any debris.
 - Resize the brass cases to ensure they fit your firearm.
 - Insert the primer into the primer pocket of the case.
 - Measure the appropriate amount of gunpowder using a reliable scale.
 - Pour the gunpowder into the case.
 - Seat the bullet firmly into the case mouth according to the specifications provided in your reloading manual.

4. Final Inspection:

- After reloading, inspect each round for proper bullet seating and overall integrity.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Do not discard brass cases in regular household waste.
- Consider recycling brass cases through local recycling programs.

Contact Information for Further Support

For any safety inquiries or concerns regarding your Hornady 50 BMG brass cases, please contact your local Hornady representative or visit the official Hornady website for more information.

By following these guidelines, you can ensure the safe and effective use of Hornady 50 BMG brass cases. Thank you for prioritizing safety in your reloading practices.
