

1911 MATCH FIT BARRELS - BAR-STO PRECISION MACHINE 1911 GOVT 5" MATCH FIT 45ACP BARREL

[Handgun Parts](#) > [Barrel Parts](#) > [Barrels](#)

These 1911 Government 5" barrels are "Match Fit", meaning they are OVERSIZED in various areas and need to be machined to fit. Recommended for only qualified, experienced gunsmiths. Barrels come with barrel link, bushing, & link pin. 45ACP barrel is non-ramped. Bar-Sto Precision Machine has been making some of the finest auto-pistol barrels since 1971. Bar-Sto barrels have been used by the U.S. Marine Corps Marksman Unit since 1977. All Bar-Sto Pistol barrels are machined from solid 416 stainless steel bar stock which has been heat treated 39 to 43 RC and 180,000 PSI tensile strength. Barrels are machined, bored, and rifled completely in Bar-Sto's own shop. All barrels have a rate of twist of 1 turn in 16".

Safety Instruction Guide for 1911 Match Fit Barrels

Introduction

Thank you for choosing the 1911 Match Fit Barrels by BarSto Precision Machine. This guide provides essential safety instructions and guidelines to ensure the safe use and installation of your new barrel. Please read this document carefully before use.

General Safety Guidelines

- Ensure that you are a qualified and experienced gunsmith before attempting to install or modify the barrel.
- Always handle firearms with care and follow all local laws and regulations regarding firearm safety and usage.
- Inspect the barrel and all included components for any signs of damage or defects before installation.
- Store the barrel in a secure location away from children and unauthorized users.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the barrel and during installation.

Specific Safety Precautions for Use

- The barrel is oversized and requires machining to fit. Do not attempt to install the barrel without proper machining.
- Ensure that the barrel is compatible with your specific 1911 Government model before installation.
- Do not use the barrel if it shows any signs of wear or damage after installation.
- Only use ammunition that is specified for use with the 45 ACP cartridge.
- Always ensure that the firearm is unloaded before performing any maintenance or installation work.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components, including the barrel link, bushing, and link pin.
- Ensure that your workspace is clean and free of any obstructions.

2. Machining the Barrel:

- Take the oversized barrel to a qualified gunsmith for proper machining to ensure a precise fit.
- Follow the gunsmith's instructions regarding the machining process.

3. Installation:

- Once machined, carefully install the barrel into the slide of the 1911 Government model.
- Attach the barrel link, bushing, and link pin as per the manufacturer's specifications.
- Ensure all components are securely fastened and that there is no excessive play.

4. Testing:

- After installation, perform a function check to ensure that the firearm operates correctly.
- Test the firearm in a safe environment, ensuring that all safety measures are in place.

5. Maintenance:

- Regularly inspect the barrel and components for wear and tear.
- Clean the barrel as per the manufacturer's guidelines to ensure optimal performance.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If you need to dispose of the barrel, it is recommended to contact a local firearms dealer for proper disposal methods in accordance with local laws and regulations.

Contact Information for Further Support

For any inquiries regarding safety or product-related questions, please reach out to your local BarSto Precision Machine distributor or authorized dealer. They can provide assistance and further information regarding your product.

Thank you for your attention to these safety guidelines. Your safety is our priority.
