

308 AR HYBRID BARRELS, 6.5 CREEDMOOR - CRITERION BARRELS INC 308AR HYBRID BARREL, 6.5 CREEDMOOR, 18", STAINLESS STEEL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrels](#)

Criterion Hybrid contour match grade 6.5 Creedmoor AR barrels offer an ideal configuration for those seeking extreme accuracy without the added weight of a heavy barrel contour. Featuring a flatter trajectory and higher ballistic coefficient than the traditional .308 Winchester alternative, the 6.5 Creedmoor has grown in popularity with many long range shooters. Designed to be compatible with DPMS, Midwest Industries, Remington, and Fulton Armory pattern rifles, these 6.5 Creedmoor barrels can be directly swapped with factory .308 barrels. Button rifled and hand lapped to ensure consistent bore uniformity, Criterion 6.5 Creedmoor AR barrels incorporate a 5/8 x 24 muzzle thread and finished chamber. Headspace should be checked prior to installation by a qualified gunsmith. NOTE: The 18" 100-019-351 utilizes a .750" gas block while the 22" 100-019-352 utilizes a .875" gas block (NOT include for either).

Safety Instruction Guide for 308 AR Hybrid Barrels, 6.5 Creedmoor

Introduction

Thank you for choosing the 308 AR Hybrid Barrels, 6.5 Creedmoor by Criterion Barrels Inc. This guide provides essential safety information and instructions to ensure the safe use and maintenance of your barrel. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith to avoid any installation errors.
- Always handle firearms and components with care, following all safety protocols.
- Ensure that you are using the correct ammunition type (6.5 Creedmoor) to avoid malfunctions or accidents.
- Keep the barrel and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the barrel for any signs of wear or damage. If any issues are found, consult a qualified gunsmith.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Before firing, ensure that the firearm is pointed in a safe direction and that the area is clear of people and obstacles.
- Check the headspace before installation to ensure proper fit and function.
- Avoid using excessive force during installation or removal of the barrel.
- Be aware of the muzzle thread size (5/8 x 24) and ensure compatibility with your muzzle device.
- Do not attempt to modify the barrel or its components without professional guidance.

Instructions for Installation and Usage

1. Installation:

- Confirm that you have the correct tools and equipment for installation.
- Ensure that the firearm is unloaded and that the chamber is clear.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Install the 308 AR Hybrid Barrel by following these steps:
 - Align the barrel with the receiver.
 - Ensure that the barrel nut is properly torqued as per the manufacturer's specifications.
 - Check that the barrel is securely attached and that there are no gaps.
- Verify that the headspace is correct before proceeding to use the firearm.
- Consult a qualified gunsmith if you are unsure about any part of the installation process.

2. Usage:

- Use only 6.5 Creedmoor ammunition with your barrel.
- After installation, conduct a function check to ensure proper operation.
- Follow all standard operating procedures for your firearm while shooting.
- Regularly clean and maintain the barrel to ensure optimal performance and longevity.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- If the barrel is damaged beyond repair, consult local authorities or a qualified gunsmith for proper disposal methods.
- Never dispose of firearms or components in regular household waste.

Contact Information for Further Support

For additional support or inquiries regarding safety, installation, and usage of the 308 AR Hybrid Barrels, 6.5 Creedmoor, please reach out to your local retailer or consult a qualified gunsmith. Always ensure that you are following the latest safety guidelines and regulations.

Thank you for prioritizing safety while enjoying your shooting experience.
