

308 AR HYBRID BARRELS, 6.5 CREEDMOOR - CRITERION BARRELS INC 308AR HYBRID BARREL, 6.5 CREEDMOOR, 22", STAINLESS STEEL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrels](#)

Criterion Hybrid contour match grade 6.5 Creedmoor AR barrels offer an ideal configuration for those seeking extreme accuracy without the added weight of a heavy barrel contour. Featuring a flatter trajectory and higher ballistic coefficient than the traditional .308 Winchester alternative, the 6.5 Creedmoor has grown in popularity with many long range shooters. Designed to be compatible with DPMS, Midwest Industries, Remington, and Fulton Armory pattern rifles, these 6.5 Creedmoor barrels can be directly swapped with factory .308 barrels. Button rifled and hand lapped to ensure consistent bore uniformity, Criterion 6.5 Creedmoor AR barrels incorporate a 5/8 x 24 muzzle thread and finished chamber. Headspace should be checked prior to installation by a qualified gunsmith. NOTE: The 18" 100-019-351 utilizes a .750" gas block while the 22" 100-019-352 utilizes a .875" gas block (NOT include for either).

Safety Instruction Guide for 308 AR Hybrid Barrels, 6.5 Creedmoor

Introduction

Thank you for choosing the 308 AR Hybrid Barrels, 6.5 Creedmoor by Criterion Barrels Inc. This guide provides essential safety information to ensure the safe use and handling of your new barrel. Please read this manual carefully before installation and usage.

General Safety Guidelines

- Ensure safe handling of all firearms and firearm components.
- Always treat every firearm as if it is loaded.
- Store barrels and firearms securely to prevent unauthorized access, especially from children.
- Familiarize yourself with local laws and regulations regarding firearm modifications and usage.
- Use appropriate personal protective equipment (PPE) when handling firearms, including eye and ear protection.
- Regularly inspect your barrel for any signs of damage or wear before use.

Specific Safety Precautions for Use

- Check for compatibility with your firearm model before installation. The 6.5 Creedmoor barrel is designed to be compatible with DPMS, Midwest Industries, Remington, and Fulton Armory pattern rifles.
- Do not attempt to install the barrel without proper tools and expertise. Consult a qualified gunsmith if you are unsure.
- Prior to installation, verify the headspace with a qualified gunsmith to ensure safety and proper function.
- Ensure that the muzzle thread is properly aligned and secure before use.
- Avoid using excessive force when tightening components to prevent damage.
- Be aware of the weight and balance of your firearm after installation, as this may affect handling and shooting performance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment for installation.
- Ensure your workspace is clean and free of distractions.
- Have a qualified gunsmith available if you are not experienced in firearm modifications.

2. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel according to the manufacturer's instructions.
- Align the new 6.5 Creedmoor barrel with the receiver, ensuring compatibility.
- Secure the barrel in place, following the manufacturer's torque specifications.
- Install the muzzle device if applicable, ensuring proper alignment.
- Verify that the gas block is properly installed and aligned with the gas port.
- Check the headspace with a gauge to ensure it is within safe limits.

3. Usage:

- Always follow standard firearm safety rules when using your firearm.
- Regularly clean and maintain your barrel to ensure optimal performance.

- Monitor for any signs of wear or damage during use.

Disposal Instructions

- Dispose of any damaged or worn barrels in accordance with local regulations.
- Do not discard firearms or firearm components in regular household waste.
- Contact local authorities or waste disposal facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of your 308 AR Hybrid Barrels, 6.5 Creedmoor, please consult a qualified firearms expert or gunsmith.

Conclusion

Your safety is our top priority. By following these guidelines and instructions, you can ensure the safe and effective use of your 308 AR Hybrid Barrels, 6.5 Creedmoor. Always prioritize safety and seek professional assistance when needed. Thank you for your attention to these important safety instructions.
