Constructed of premium horsehide, the Royal Guard has the rough side of the leather out for greater stability in the pants, while the smooth side of the leather lies against the handgun for a slicker draw feel. The butt-forward cant increases concealability when worn behind the strong hip, while the addition of a raised sweat guard protects both the handgun and the gun carrier. The new black-colored metal-reinforced mouth allows easy one-handed return to the holster. The Royal Guard is supplied with removable black belt loops fitting belts up to 1 3/4". All these features combine to make a truly professional-grade IWB holster.
