Wet Hand? Wearing Gloves? Helps You Release the Bolt on the First Swipe

GEISSELE MARITIME BOLT CATCH FOR AR-15 The Geissele® Maritime Bolt Catch is designed with the warfighter in mind and will work with any lower receiver designed to accept a mil-spec M16/M4 Carbine bolt catch. The increased surface area promotes ease of function when locking back the bolt or releasing the bolt after a magazine change. In addition, the extended controls add an increased functionality for left handed shooters who no longer have to break their grip to manipulate the bolt catch. Left handed shooters can easily reach the controls using the index finger of their left hand making magazine changes and locking the bolt back much more fast and efficient. Aggressive checkering covers the surface of the levers giving the Geissele® Maritime Bolt Catch a textured surface that enables positive feedback to the shooters hand when being used with gloves or at night. Please Note: A mil-spec bolt catch spring and plunger are required for assembly and are NOT included. If the Maritime Bolt Catch is replacing an existing mil-spec bolt catch, please use care when disassembling the component from your lower receiver as you will need these parts to install the Maritime Bolt Catch. Compatibility with billet AR-15 lower receivers is unknown. Please also note that the extended controls of the Geissele Maritime Bolt Catch will partially cover the pin hole for the hammer, a smaller punch may be required to push the hammer pin out of the receiver from the left side, and the hammer pin should only be installed from the right side of the receiver.

Safety Instruction Guide for AR15 Maritime Bolt Catch

Introduction

Thank you for choosing the Geissele Maritime AR15 Bolt Catch. This product is designed to enhance the function of your AR15 in wet operating environments. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this instruction manual.

General Safety Guidelines

- Always ensure the firearm is unloaded before installing or handling the bolt catch.
- Use the bolt catch only with compatible AR15, M16, or M4 lower receivers.
- Inspect the bolt catch regularly for any signs of wear or damage.
- Keep the bolt catch clean and free from debris to ensure proper function.
- Store the firearm and its components in a safe and secure manner, away from children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure you are familiar with the operation of the AR15 platform before using the bolt catch.
- Always wear appropriate eye and ear protection when handling firearms.
- When using the bolt catch, make sure your fingers are clear of the ejection port to avoid injury.
- If you are a lefthanded shooter, practice using your left index finger to operate the bolt catch to ensure safe and efficient use.
- Avoid using the bolt catch in conditions that could impair your grip, such as wet or muddy environments, unless you are equipped with gloves designed for such conditions.

Instructions for Installation and Usage

Installation

1. **Safety First:** Ensure the firearm is completely unloaded. Remove the magazine and visually inspect the chamber.
2. **Disassemble:** Remove the existing bolt catch from the lower receiver by pushing out the retaining pin.
3. **Install the Maritime Bolt Catch:**
 - Position the Maritime Bolt Catch in the same location as the previous catch.
 - Insert the retaining pin to secure the bolt catch in place.
4. **Check Functionality:** After installation, test the bolt catch to ensure it operates smoothly and securely.

Usage

- To lock the bolt back:
 - Press the oversized button on the Maritime Bolt Catch with your thumb or left index finger.
- To release the bolt:
 - Press the same button again to allow the bolt to move forward.
- Practice using the bolt catch in a safe environment to become familiar with its operation.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and firearm components.
- Do not dispose of the product in household waste. Contact local recycling centers for appropriate disposal.
