

# TTI GRAND MASTER CONNECTOR KIT GLOCK® GEN4 - TRIGGER CONNECTOR UPGRADE, GLOCK® GEN4

[Handgun Parts](#) > [Trigger Group Parts](#) > [Connector Parts](#)

TTI Grand Master Connector Kit Any great shooter who knows their way around a Glock will tell you that the key to having the optimal set-up is a great connector kit and extra springs. Glock's advertised 5.5lb trigger pull actually measures out at 7-7.75lbs on average. The Grand Master Connector Kit brings down the trigger pull to 3-5lb with no gunsmithing! (Varies from Glock to Glock). This trigger package will provide the lightest, smoothest, and cleanest trigger break you'll ever put into your Glock. Made from extremely hard SAE 1075 Heat-Treated Tool-Steel, highly polished, and the only connector that is electroless nickel plated ( MIL-C-26074E Military Standard ). This process achieves a light, clean smooth break with specially designed chrome silicone springs to remove some of the take-up and add a faster reset while reducing brittleness. Top shooters from around the world attest to the superiority and competitive excellence brought by the Grand Master connector kit.
