

# UNPRIMED 45 AUTO PISTOL BRASS - 45 AUTO BRASS 4,500/CASE

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

HORNADY UNPRIMED 45 AUTO PISTOL BRASS Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

# Safety Instruction Guide for UNPRIMED PISTOL BRASS 45 AUTO BRASS

## Introduction

Thank you for choosing Hornady Unprimed Pistol Brass 45 Auto Brass. This guide provides important safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the brass to understand the necessary precautions and procedures.

## General Safety Guidelines

- Ensure safe handling of all nonfood products, including this brass.
- Be aware of potential risks associated with the use of unprimed brass.
- Follow all safety guidelines to minimize risks when reloading ammunition.
- Use this product only for its intended purpose.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling brass.
- Keep the brass out of reach of children and vulnerable individuals.
- Inspect the brass for any damage or defects before use.
- Do not attempt to modify or alter the brass in any way.
- Ensure that your reloading equipment is compatible with 45 Auto brass.
- Follow all local laws and regulations regarding ammunition reloading and use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials for reloading.
- Ensure your workspace is clean and organized.

### 2. Inspecting Brass:

- Check each piece of brass for signs of damage or wear.
- Discard any brass that appears compromised.

### 3. Reloading Process:

- Follow the manufacturer's instructions for your reloading press.
- Ensure that the brass is seated properly in the reloading die.
- Use appropriate powder and bullet specifications for 45 Auto.

### 4. Testing Reloaded Ammunition:

- Conduct initial tests in a safe and controlled environment.
- Monitor for any signs of malfunction or irregularities during firing.

### 5. Storage:

- Store unused brass in a cool, dry place.
- Keep the brass in a secure container to prevent unauthorized access.

## **Disposal Instructions**

- Dispose of any damaged or unusable brass in accordance with local regulations.
- Do not throw brass in regular trash; consider recycling options where available.
- Follow your local guidelines for hazardous materials if applicable.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the use of Hornady Unprimed Pistol Brass, please reach out to your local distributor or refer to the official Hornady website for additional resources and support.

By adhering to these safety instructions, you can ensure a safe and enjoyable experience when using Hornady Unprimed Pistol Brass 45 Auto Brass. Thank you for prioritizing safety in your reloading practices.
