

# STACKABLE FUNNEL DROP TUBE - AREA 419 STACKABLE DROP TUBE 3"

[Reloading](#) > [Powder Handling](#) > [Powder Funnels](#)

STACKABLE FUNNEL DROP TUBE Powder drop tubes are used when trying to fill cases beyond what is normally achievable with extruded powders. The longer drop combined with relatively small internal bore allows the kernels of powder to fill the case more fully. Tubes are for use only with the Area 419 Interchangeable head powder funnel system SPECIFICATIONS: 3" Long Can be attached together to form any multiple of 3" length Caliber specific heads attach to the end of the drop tube Machined from solid 6061-T6 Aluminum Type II Anodized

## Attributes

- Name: [AREA 419 STACKABLE DROP TUBE 3"](#)
- Manufacturer: [AREA 419](#)

# Safety Instruction Guide for STACKABLE FUNNEL DROP TUBE

## Introduction

Thank you for choosing the STACKABLE FUNNEL DROP TUBE from AREA 419. This product is designed to enhance your reloading experience by facilitating the efficient filling of cases with powder. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always keep the product out of reach of children and vulnerable individuals.
- Do not use the drop tube with any substances other than the recommended powders.
- Inspect the product before each use for any signs of damage or wear.
- If you notice any defects, do not use the product and contact a professional for advice.
- Follow all local regulations and guidelines regarding the handling and storage of reloading materials.

## Specific Safety Precautions for Use

- Use the drop tube in a wellventilated area to avoid inhaling any dust or particles.
- Avoid using excessive force when attaching or detaching the drop tube to prevent damage.
- Ensure that the drop tube is securely attached to the powder funnel before use.
- Do not exceed the recommended length when stacking multiple tubes, as this may lead to instability.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powders.

## Instructions for Installation and Usage

### 1. Assembly:

- Take the drop tube and ensure it is clean and free from debris.
- Align the drop tube with the Area 419 powder funnel head.
- Push the drop tube firmly into place until it clicks or locks securely.

### 2. Stacking:

- If using multiple drop tubes, align them endtoend.
- Ensure that each tube is securely attached to the next.
- The total length should be a multiple of 3 inches to maintain stability.

### 3. Filling Cases:

- Position the drop tube over the case you wish to fill.
- Pour the powder into the funnel at the top of the drop tube.
- Allow the powder to flow down into the case, ensuring it fills completely.

### 4. Cleaning:

- After use, detach the drop tube from the funnel.
- Clean the drop tube with a soft brush or cloth to remove any powder residue.
- Store the drop tube in a dry place away from direct sunlight.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local waste management regulations.
- If the product becomes unusable, consider recycling materials where applicable, following local guidelines.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and use of the STACKABLE FUNNEL DROP TUBE, please refer to the contact information included with your product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your STACKABLE FUNNEL DROP TUBE. Thank you for your attention to safety.
