

# LOCK-N-LOAD AP SHELLPLATE - #19 LOCK-N-LOAD SHELLPLATE

[Reloading](#) > [Shellholders & Shellplates](#)

Shell plates for Lock-N-Load AP and Pro-Jector are available to fit most calibers. Each shell plate will also hold additional calibers with the same case head dimensions. Current shell plates are designed to fit Lock-N-Load AP (both EZ-Ject and wire ejector models) and Pro-Jector presses. These shell plates require the purchase of the 749-012-552 Hornady Auto press retrofit kit if your press still has the OLD STYLE SPRING TYPE CARTRIDGE CASE EJECTOR SYSTEM. If you have any questions please contact your Sinclair tech 800-717-8211. View Hornady Shellplate Chart.

# LOCKNLOAD AP SHELLPLATE #19 Safety Instructions

## Introduction

Thank you for choosing the LOCKNLOAD AP SHELLPLATE #19. This guide provides essential safety instructions to ensure the safe and effective use of your shell plate. Please read this manual carefully before using the product.

## General Safety Guidelines

- Always ensure that the shell plate is compatible with your specific reloading press model.
- Inspect the shell plate for any signs of damage or wear before each use.
- Keep the shell plate and all reloading tools out of reach of children and vulnerable individuals.
- Never attempt to modify or alter the shell plate in any way.
- Always wear appropriate personal protective equipment (PPE) when using reloading equipment, including safety glasses.
- Follow all manufacturer instructions for your specific reloading press model.

## Specific Safety Precautions for Use

- Ensure that the LockNLoad AP press is properly set up before installation of the shell plate.
- Verify that the cartridge case ejector system is compatible with the shell plate. If your press has the old style springtype cartridge case ejector system, purchase the necessary retrofit kit.
- When changing shell plates, make sure the press is not in operation to avoid accidental injuries.
- Always handle reloading components in a wellventilated area to minimize exposure to fumes.
- Store the shell plate in a dry, cool place when not in use to prevent corrosion or damage.
- Be aware of the specific calibers that the shell plate can accommodate and do not attempt to reload with unsupported calibers.

## Instructions for Installation and Usage

### 1. Installation

- Ensure the reloading press is turned off and unplugged.
- Remove any existing shell plate from the press.
- Align the new LOCKNLOAD AP SHELLPLATE #19 with the mounting points on the press.
- Secure the shell plate in place according to the manufacturer's instructions.
- If required, install the 749012552 Hornady Auto press retrofit kit for compatibility with the old style ejector system.

### 2. Usage

- Load the appropriate cartridge cases into the shell plate, ensuring they are correctly seated.
- Follow your reloading data and procedures carefully for the specific caliber you are using.
- Monitor the reloading process closely to ensure there are no jams or malfunctions.
- After reloading, inspect the finished cartridges for quality and safety before use.

## Disposal Instructions

- Dispose of any damaged or worn shell plates according to local regulations.
- Do not throw away in regular household waste. Check for recycling options or hazardous waste disposal programs in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the LOCKNLOAD AP SHELLPLATE #19, please consult the manufacturer's website or contact customer support for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience. Always prioritize safety and adhere to best practices when using reloading equipment. Thank you for your attention to these important guidelines.
