

TACTICAL SCOPE RINGS - 34MM HIGH (1.44") TACTICAL PICATINNY RINGS, BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

Billet Machined For Strength; Dual Recoil Lugs Stay Put

Heavy-duty scope rings are precision-machined from solid billet aluminum with dual recoil lugs to ensure your tactical scope won't budge under the heaviest recoil. Full-width ring caps are cut from the same billet as the bottom half of the ring for precise fit and held in place with four stainless steel Allen head screws that won't work loose when properly tightened. Matching serial numbers ensure you always mate the cap with the bottom it came with. Locking bar, heavy-duty crossbolt and oversized, ½" hex nut locks the ring to any MIL-STD 1913 Picatinny rail. Hard-anodized for extra surface strength, with a non-reflective matte black finish. Engraved front and back with the distinctive Talley cross-bones logo.

TACTICAL SCOPE RINGS 34MM HIGH Safety Instruction Guide

Introduction

Thank you for choosing the TACTICAL SCOPE RINGS 34MM HIGH. This guide provides essential safety instructions, installation tips, and disposal information to ensure your product is used safely and effectively.

General Safety Guidelines

- Always inspect the scope rings for any visible damage or defects before use.
- Ensure that the scope rings are compatible with your scope and firearm.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe product conditions or incidents to the appropriate authorities.
- Regularly check for product recalls and safety updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the scope rings are securely tightened to avoid any movement during use.
- Do not exceed the recommended torque specifications when tightening screws.
- Avoid using the scope rings in extreme temperatures or harsh conditions that may affect performance.
- Always use appropriate eye and ear protection when handling firearms.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools: a torque wrench and the included Allen head screws.
- Ensure your firearm is unloaded and in a safe condition before installation.

2. Installation Steps

- Position the scope rings on the MILSTD 1913 Picatinny rail.
- Align the locking bar and heavyduty crossbolt to ensure a secure fit.
- Insert the four stainless steel Allen head screws into the designated holes.
- Tighten each screw gradually in a crisscross pattern to ensure even pressure.
- Use a torque wrench to tighten screws to the manufacturer's specifications.

3. Usage

- Once installed, mount your tactical scope into the rings.
- Adjust the scope for eye relief and target alignment.
- Securely tighten the scope rings to hold the scope in place.
- Conduct a functional test to ensure stability and accuracy.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of in regular household waste.
- Consider recycling the aluminum and stainless steel components if possible.

Contact Information for Further Support

For any inquiries or additional support, please refer to the manufacturer's website or your point of purchase. Always ensure that you have the product serial number available for reference.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the TACTICAL SCOPE RINGS 34MM HIGH!
