Reduce Overtravel - Increase Accuracy

Own one of Smith & Wesson's budget-priced SDVE handguns? You don't have to live with the budget trigger pull that comes with it! Add in one of Apex Tactical's Polymer Action Enhancement Triggers and watch your capabilities grow. Each Apex Tactical Polymer Trigger is designed to replace the factory hinged trigger found on the S&W SDVE, giving users a solid-body design in its place. At the center of the trigger is a pivoting safety, which preserves the factory safety values while providing a more-solid trigger pull. After installing the Apex Tactical Polymer Action Enhancement Trigger, users will find that the design reduces pre-travel by 20 percent and overtravel by 10 percent. Additionally, the trigger face is designed to offer a smoother, more-comfortable shooting surface for SDVE owners. Options are available in black or FDE colors.

Safety Instruction Guide for SMITH & WESSON SDVE Polymer Action Enhancement Trigger

Introduction

Thank you for choosing the SMITH & WESSON SDVE Polymer Action Enhancement Trigger by Apex Tactical Specialties Inc. This guide provides essential safety instructions and guidelines to ensure the safe use of your product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure compliance with all local laws and regulations regarding firearm modifications.
- Always treat your firearm as if it is loaded, regardless of its actual status.
- Keep the firearm pointed in a safe direction at all times.
- Store the trigger and firearm in a secure location, away from unauthorized users, especially children.
- Regularly inspect your firearm and trigger for wear and damage.
- Use only factory-approved parts and accessories to ensure safety and reliability.
- If you experience any issues with the trigger or firearm, consult a qualified gunsmith.

Specific Safety Precautions for Use

- **Installation Safety:**
 - Only install the trigger in a safe environment, free from distractions.
 - Ensure the firearm is unloaded before beginning any installation.
 - Wear safety glasses to protect your eyes from potential debris during installation.
- **Usage Safety:**
 - Familiarize yourself with the new trigger's operation before using the firearm.
 - Practice safe shooting habits and follow all standard firearm safety rules.
 - Be aware of the reduced pretravel and overtravel, which may affect trigger sensitivity.
- **Storage Safety:**
 - Store the trigger and firearm in a locked container when not in use.
 - Maintain trigger cleanliness and check for any obstructions before use.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary tools: screwdriver set, punch set, and safety glasses.

2. Removing the Factory Trigger:

- Disassemble the firearm according to the manufacturer's instructions.
- Carefully remove the factory trigger from the trigger housing.

3. Installing the Apex Tactical Polymer Action Enhancement Trigger:

- Align the Apex trigger with the trigger housing.
- Securely fasten the trigger in place, ensuring it is properly seated.
- Reassemble the firearm, following the manufacturer's guidelines.

4. Testing the Installation:

- Once the firearm is reassembled, conduct a function check.
- Ensure that the trigger operates smoothly and engages properly.

Usage Instructions

- After installation, practice with the trigger in a safe and controlled environment.
- Always follow standard shooting practices, including maintaining a proper grip and stance.
- Be mindful of the trigger's enhanced features and adjust your shooting technique accordingly.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the trigger is ever deemed unsafe or defective, do not attempt to repair it yourself. Contact a qualified professional for proper disposal.
