An Action Built for a Workhorse Tactical Rifle

Designed to help precision shooters excel in competition, the Defiance Machine Deviant Tactical rifle action is built to be the workhorse component of any solidly built long-range rig. This rifle is the most rigid receiver ever built by the company, making it a top choice for today's elite competitors. This Defiance Machine Deviant Tactical action is available in right-hand configurations and features an integrated scope base and recoil lug. The action is sized right for long-action magnum cartridges with a .545 bolt face and is also compatible with long-action AICS-pattern magazines. The action itself is made from 416 stainless steel, and the one-piece bolt is made from 4340 chrome-moly steel. Each Defiance Machine Deviant Tactical action ships with the receiver body, one-piece bolt, bolt stop, bolt release, release pin and spring, extractor, knob, firing pin and pin spring, cocking piece, bolt shroud and trigger pins. Bolt fluting is available as an optional extra on push-feed bolts, and the actions can be had with either repeater or single-shot magazine cuts.
