## **A 300-Yard Target Camera for Instantaneous Shot-Reporting**

Sure, a spotting scope or a high-magnification riflescope can give you a good look at your targets inside of 100 yards, but what if you want to push your rifle out to 200 or 300 yards? That's where an innovative system like the SME Bullseye Camera Systems Sight-In Camera comes into play. This incredible Sight-In 300 Yard Target Camera System is an all-in-one unit that provides high-definition, real-time video of your target to the shooter. The built-in Wi-Fi transmitter transmits video to a users' phone, and the weather-resistant construction means it can be used in all environments without issue. Thanks to the free Bullseye Target Manager app available for Android and Apple devices, shooters can use their phone to check targets while they're at the bench. No more calling the line cold to go down and check targets! Each SME Bullseye Camera Systems Sight-In Camera provides high-definition video at 960p and features a built-in locking cantilever and a 1/4-inch tripod mount that you can use on any standard camera tripod. Also included with the kit is a built-in sunshade that prevents lens glare, and LED illumination for use in low-light environments.

# SME Bullseye SightIn Camera Safety Instructions

## Introduction

Thank you for choosing the SME Bullseye SightIn Camera. This product is designed to enhance your shooting experience by providing highdefinition video of your targets. To ensure safe and effective use of your camera, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle your shooting equipment responsibly and with care.
- Keep the camera and its accessories out of reach of children.
- Do not use the camera in adverse weather conditions that could lead to damage.
- Regularly inspect the camera for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Risk of Eye Injury:** Always ensure that the camera is positioned securely and away from the shooting line to prevent accidental eye injury.
- **Electrical Safety:** Avoid using the camera in wet environments to prevent electrical shock or damage to the device.
- **Tripod Stability:** Ensure that the tripod is stable and securely locked before attaching the camera to avoid falls and potential injury or damage.
- **WiFi Connectivity:** Be aware that the builtin WiFi transmitter may cause interference with other devices. Maintain a safe distance from sensitive electronics when in use.
- **Lens Care:** Use the builtin sunshade to prevent lens glare and protect the lens from scratches or damage.

## Instructions for Installation and Usage

1. **Unboxing:** Carefully unpack the SME Bullseye SightIn Camera and check that all components are included.
2. **Tripod Setup:**
  - Attach the camera to a standard tripod using the 1/4inch tripod mount.
  - Ensure the tripod is stable and set up on a flat surface.
3. **Powering On:**
  - Turn on the camera using the power button.
  - Ensure that the camera is fully charged or connected to a power source.
4. **Connecting to WiFi:**
  - Download the Bullseye Target Manager app from the App Store or Google Play.
  - Follow the app instructions to connect your smartphone to the camera's WiFi.
5. **Target Setup:**
  - Position your target at the desired distance (up to 300 yards).
  - Ensure the target is clearly visible within the camera's field of view.
6. **Recording Video:**
  - Start the video recording through the app on your smartphone.
  - Monitor the live feed to ensure the target is in focus.
7. **Checking Targets:**
  - Use your smartphone to check the targets without needing to walk downrange.
  - After shooting, review the footage to assess performance.

## **Disposal Instructions**

- Dispose of the SME Bullseye SightIn Camera and its components in accordance with local regulations.
- Do not dispose of electronic devices with regular household waste. Look for designated electronic recycling facilities.
- Remove batteries and dispose of them separately in accordance with battery disposal regulations.

## **Contact Information for Further Support**

For any questions or concerns regarding the SME Bullseye SightIn Camera, please refer to the user manual or visit the manufacturer's website for assistance.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the SME Bullseye SightIn Camera!
