## High-Powered Replacement Light Heads

REPLACEMENT LIGHT HEADS The OKW light head is a direct replacement for the Surefire M600DF head. It can be used with the Modlite 18650 body or the smaller Modlite 18350 body. While lumen output is only 680 lumen the throw is about 400% greater than the M600DF. This light head is best suited for situations where extreme throw is needed. Hand assembled in and tested in the USA. Lifetime guarantee Approximately 680 out the front lumens and candela is approximately 69,000. This light is an excellent choice for anyone needing maximum throw. 6061 Series Alum bezel with Mil-Spec Hard Anodizing. Ultra clear BOROFLOAT® lens allows 98-99% light transmittance. The IR-850 light head can be used with our 18650 body, our smaller 18350 body or the Surefire® M600DF Dual Fuel body. This is a dedicated IR illumination head that is designed to output IR light in the 850nm IR spectrum. The reflector is designed to deliver a good amount of spill and a well defined hot spot at distances up to 300 yards depending on atmospheric conditions. Hand assembled in and tested in the USA. Lifetime guarantee Approximately 1100mW IR output. (for comparison the SF 952v is 160mW) 6061 Series Alum bezel with Mil-Spec Hard Anodizing. Ultra clear BOROFLOAT® lens allows 98-99% light transmittance. NOTE: Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. We recommend the KeepPower 18650/18350 high drain cells which can be found [here](#). Runtime is about 120 minutes with 18650 and about 50 minutes with the smaller 18350 cells. Do not stack 18350 cells into an 18650 body this can cause the light to malfunction. Only use 18650 cells in 18650 bodies and 18350 cells in 18350 bodies.

## Attributes

- Name: [MODLITE SYSTEMS OKW LIGHT HEAD](#)
- Manufacturer: [MODLITE SYSTEMS](#)
- Product no.: 100037370
- Mfr. No.: MM-OKW-HEAD-BLK
- Delivery weight: 0.091kg
- Shipping height: 38mm
- Shipping width: 76mm
- Shipping length: 152mm
- UPC: 850008965052

## Light Head Safety Instructions

### Introduction

Thank you for choosing the Replacement Light Heads Modlite Systems OKW Light Head. This guide provides important safety instructions to ensure the safe and effective use of your light head. Please read this document carefully before using the product.

### General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Keep the light head out of reach of children and vulnerable individuals.
- Regularly inspect the light head for any signs of damage or wear.
- Do not use the light head if it appears damaged or is not functioning properly.
- Follow all local regulations regarding the use of illumination devices.

### Specific Safety Precautions for Use

- **Battery Safety:**
  - Only use the recommended KeepPower 18650/18350 high drain cells.
  - Do not use Lithium CR123 cells, as they may overheat, explode, or catch fire.
- **Heat Management:**
  - Avoid stacking 18350 cells into an 18650 body to prevent malfunction.
  - Ensure proper ventilation during use to prevent overheating.
- **Light Output:**
  - The OKW light head produces approximately 680 lumens and is designed for maximum throw. Use caution when operating in confined spaces or near reflective surfaces.
- **IR Light Head Caution:**
  - The IR850 light head outputs infrared light and is intended for specialized use. Ensure proper equipment is used to view IR light safely.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure the body of the light (18650 or 18350) is clean and free from debris.
- Align the threads of the light head with the body.
- Carefully screw the light head onto the body until it is securely fastened.

#### 2. Usage:

- To turn on the light, press the activation switch as instructed in the product manual.
- For optimal performance, ensure that the batteries are fully charged before use.
- Do not exceed the recommended runtime of approximately 120 minutes with 18650 cells and 50 minutes with 18350 cells.
- After use, allow the light head to cool down before handling.

### Disposal Instructions

- Dispose of the light head and batteries in accordance with local regulations.
- Do not dispose of batteries in regular household waste.
- Check for local recycling programs for electronic waste and batteries.

## **Contact Information for Further Support**

For any inquiries related to safety or product support, please refer to the manufacturer's website or contact their customer service.

Thank you for following these safety instructions. Your safety is our priority, and we hope you enjoy using your Replacement Light Heads Modlite Systems OKW Light Head responsibly.
