

REPLACEMENT LIGHT BODIES - MODLITE SYSTEMS 18350 BODY

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Weapon Lights](#)

Lightweight Weapon Light Replacement Body

The Modlite light 18350 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and the KE2-DF head. This is the only Surefire light head that it is compatible with. It is approximately 1.25 inches shorter and about 1.5 oz. lighter than a M600DF body with battery. This allows for additional rail space especially on SBR and pistol builds. The Modlite 18350 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. This light body accepts 18350 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 18350 1200mAh cells. Runtime is about 35-40 minutes with these cells. The Modlite light 18650 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and KE2-DF heads. It will also fit all Modlite light heads. The Modlite 18650 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. Modlite recommends and sells the Arisaka Defense mounts. This light body accepts 18650 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 3500mAh cells. Runtime is about 75-80 minutes with these cells. The Modlite 18650 light body is NOT compatible with the Surefire older Scout light heads.

Attributes

- Name: [MODLITE SYSTEMS 18350 BODY](#)
- Manufacturer: [MODLITE SYSTEMS](#)

Safety Instruction Guide for Modlite Replacement Light Bodies

Introduction

Thank you for choosing the Modlite Replacement Light Bodies. This guide provides essential safety instructions and information to ensure the safe and effective use of your Modlite light. Please read this guide carefully before use to understand the safety precautions and operational guidelines.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the Modlite light.
- Use only the specified battery types (18350 or 18650 cells) as indicated in the product description.
- Never use Lithium CR123 cells, as they can cause overheating, explosion, or fire.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the light body for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use of weapon lights.

Specific Safety Precautions for Use

- **Battery Safety:**
 - Use KeepPower high drain cells for optimal performance.
 - Ensure batteries are installed correctly, observing the polarity markings.
 - Do not mix old and new batteries or different brands.
 - If you notice any swelling, leakage, or unusual heat from the battery, discontinue use immediately.
- **Operating Environment:**
 - Avoid using the light in extreme temperatures or wet conditions.
 - Do not expose the light body to corrosive substances or chemicals.
 - Ensure that the light is securely mounted to prevent accidental dislodging.
- **Fire Hazard:**
 - Do not leave the light unattended while in use.
 - Keep away from flammable materials and surfaces.

Instructions for Installation and Usage

1. Installation:

- Ensure the light body is compatible with your Surefire® Scout Light M600DF weapon light or Modlite light heads.
- Align the mounting holes on the light body with those on your mount.
- Secure the light body using appropriate screws, ensuring a tight fit.

2. Battery Installation:

- Remove the tail cap from the light body.
- Insert the 18350 or 18650 cell into the battery compartment, ensuring correct polarity.
- Replace the tail cap securely.

3. Operation:

- To turn the light on, press the tailcap switch.
- For momentary activation, press and hold the switch.
- To turn the light off, release the switch.

4. Maintenance:

- Clean the light body with a soft, dry cloth.
- Avoid using any abrasive materials or solvents that could damage the surface.

Disposal Instructions

- Dispose of batteries in accordance with local regulations for hazardous waste.
- Do not throw batteries in regular trash or incinerate them.
- Dispose of the light body responsibly, following local electronic waste disposal guidelines.

Contact Information for Further Support

For any inquiries or safety concerns regarding your Modlite Replacement Light Bodies, please refer to the manufacturer's official website or customer service resources.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Modlite Replacement Light Bodies. Always prioritize safety and stay informed about any updates or recalls related to your product. Thank you for choosing Modlite.
