## A Match-Ready Barreled Action Built Just for Brownells

Machined and finished by Area 419's talented engineering and manufacturing team, this line of Defiance Tenacity Barreled Actions are available only through Brownells! Starting with Defiance Machine's proven Tenacity rifle action, Area 419 finishes these actions with all of the custom touches that today's precision shooters want. Each Area 419 Tenacity Barreled Action features a receiver that's nitride-treated for hardness, low-friction and durability, and the receivers are matched with cut-rifled Bartlein 5R barrels. The barrels are guaranteed to provide accuracy of 1/2 MOA or less in the hands of a skilled shooter using quality ammunition. All of the final machining and fitting is done by Area 419's team, and the whole process starts with an axial indication of the bore, which is measured to the ten-thousandth of an inch. Chambers are cut to SAAMI minimum tolerances, ensuring that shooters have a tight, match chamber to maximize the gun's potential. Barrels are available in 6.5 Creedmoor, 6mm Creedmoor, 6.5 PRC, .300 Win. Mag. and .223 Rem. Barrels are available in 24-inch lengths and feature twist rates optimized for each caliber.
