

# PL350 WEAPONLIGHTS - IR940 HEAD PISTOL LIGHT, BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Weapon Lights](#)

The PL350 is the much-anticipated handgun light that combines modularity and compatibility from Modlite. Utilizing two rail keys (included) the PL350 has the ability to fit both universal and 1913 handgun rails. And with a “out the front” battery compartment you don’t need to remove the light to change out the battery. Speaking of batteries, the PL350 is powered by a single, rechargeable 18350 (one battery included with light) that is both well known and well regarded by currently users of Modlite. The PL350 is available with 4 different options for light heads. The PLHv2, the OKW, the IR 940, and the IR-850. PLHv2 If you're looking for the best overall output and throw this is the package you want. Approximately 1350 out the front lumens and candela is approximately 54,000. It is an excellent overall light head good for indoor or outdoor use. OWK This light head is best suited for situations where extreme throw is needed. Approximately 680 out the front lumens and candela is approximately 69,000. This light is an excellent choice for anyone needing maximum throw. IR 940 This is a dedicated IR illumination head that is designed to output IR light in the 940nm IR spectrum. The reflector is designed to deliver a good amount of spill and a well defined hot spot at distances up to 75 yards depending on atmospheric conditions. Approximately 500mW IR output. IR 850 This is a dedicated IR illumination head that is designed to output IR light in the 850nm IR spectrum. The reflector is designed to deliver a good amount of spill and a well defined hot spot at distances up to 300 yards depending on atmospheric conditions. Approximately 1100mW IR output. Runtimes vary between models. Each PL350 includes a single 18350 rechargeable battery, a charger, and PHLster ARC Enhanced Switches which allow for end-user modularity

## Attributes

- Name: [IR940 HEAD PISTOL LIGHT, BLACK](#)
- Manufacturer: [MODLITE SYSTEMS](#)
- Product no.: 100042512
- Mfr. No.: 850008965117
- Battery: Rechargeable
- Candela: -
- Lumens: 1100
- UPC: 850008965117

## Item details

Made in USA

This product contains a battery.

# Safety Instruction Guide for PL350 WEAPONLIGHTS IR940 HEAD PISTOL LIGHT, BLACK

## Introduction

Thank you for choosing the PL350 WEAPONLIGHTS IR940 HEAD PISTOL LIGHT. This guide provides essential safety instructions to ensure the safe use and handling of your new weapon light. Please read this guide thoroughly before using the product.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in this manual.
- Keep the weapon light out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of damage or wear. Do not use if damaged.
- Always adhere to local laws and regulations regarding the use of weapon lights.
- Store the product in a cool, dry place when not in use.
- If you notice any unusual behavior, such as flickering or overheating, discontinue use immediately and consult a professional.

## Specific Safety Precautions for Use

- **Battery Safety:**

- Use only the included rechargeable 18350 battery. Do not use other battery types.
- Avoid exposing the battery to extreme temperatures or direct sunlight.
- Charge the battery using the provided charger only.

- **Light Output:**

- Be aware of the light output levels. The PL350 can produce high lumens; avoid shining the light directly into eyes.
- Use caution when operating in dark environments to prevent disorientation.

- **Modularity:**

- Ensure that all modular components are securely attached before use.
- Follow instructions for changing light heads carefully to avoid damaging the product.

- **Environmental Considerations:**

- Avoid using the product in wet or damp conditions unless specified.
- Do not aim the weapon light at flammable materials.

## Instructions for Installation and Usage

### 1. Installation of the Light:

- Ensure the weapon is unloaded and safe before installation.
- Select the appropriate rail key for your handgun (universal or 1913).
- Attach the PL350 securely to the rail system of your handgun.
- Ensure the light is firmly in place before proceeding.

## **2. Battery Installation:**

- Locate the battery compartment at the front of the light.
- Open the compartment by following the provided instructions.
- Insert the rechargeable 18350 battery, ensuring correct polarity.
- Close the battery compartment securely.

## **3. Using the Light:**

- To turn on the light, press the activation switch located on the body of the light.
- Cycle through the light modes as per your requirements.
- To turn off the light, press the activation switch again.

## **4. Changing Light Heads:**

- Ensure the light is turned off and the battery is removed.
- Unscrew the current light head counterclockwise.
- Align and screw in the desired light head clockwise until secure.

## **5. Charging the Battery:**

- Connect the charger to a suitable power source.
- Place the battery in the charger, ensuring proper contact.
- Follow the charger's indicators to determine charging status.

# **Disposal Instructions**

- Dispose of the product in accordance with local regulations for electronic waste.
- Do not dispose of the battery in household waste. Follow local guidelines for battery disposal.
- If the product is damaged beyond repair, ensure it is rendered unusable before disposal.

# **Contact Information for Further Support**

For any safety inquiries or further assistance, please reach out to your local distributor or manufacturer support. Ensure you have the product details ready for a more efficient response.

By following these safety instructions, you can ensure the safe and effective use of your PL350 WEAPONLIGHTS IR940 HEAD PISTOL LIGHT. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
