11th Edition Reloading Handbook Safety Instruction Guide

Introduction

Thank you for choosing the Hornady 11th Edition Reloading Handbook. This manual is designed to provide you with essential safety guidelines and instructions to ensure safe and effective use of the reloading handbook. Please read this guide carefully to familiarize yourself with important safety information and usage instructions.

General Safety Guidelines

- Always treat all firearms and ammunition as if they are loaded and ready to fire.
- Keep the reloading handbook in a safe and secure location, out of reach of children and unauthorized users.
- Ensure you are in a wellventilated area while reloading to avoid inhalation of any potentially harmful substances.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.
- Familiarize yourself with the specific properties and handling instructions for all components used in reloading.
- Never exceed the recommended load data provided in this handbook.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that you have a clear understanding of the reloading process before starting.
- Do not use damaged or defective equipment when reloading.
- Always doublecheck measurements and components before proceeding with reloading.
- Keep a clean and organized workspace to avoid accidents and misplacement of materials.
- If you are new to reloading, seek guidance from experienced reloaders or take a reloading course.
- Be aware of the specific hazards associated with each caliber and cartridge type listed in this handbook.

Instructions for Installation and Usage

- Before using the reloading handbook, ensure you have the following tools and materials:
 - Reloading press
 - Scale for measuring powder
 - Calipers for measuring cartridge length
 - Appropriate reloading dies for your caliber
 - Safety glasses and gloves
- Follow these steps for safe reloading:
 1. **Read the Handbook:** Thoroughly read the relevant sections of the 11th Edition Reloading Handbook before starting.
 2. **Setup:** Set up your reloading workspace in a clean, dry, and wellventilated area.
 3. **Component Check:** Verify that you have the correct components for the caliber you are reloading.
 4. **Measure:** Use a scale to measure the powder accurately according to the data provided in the handbook.
 5. **Assemble:** Carefully assemble the cartridge components, ensuring that you follow the recommended procedures.

6. **Inspect:** Inspect each completed cartridge for any visible defects.
7. **Store:** Store all reloaded ammunition in a safe location, away from children and unauthorized users.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not throw away hazardous materials in regular trash; consult your local waste disposal authority for proper disposal methods.
- Ensure that all empty cartridges and containers are disposed of responsibly.

Contact Information for Further Support

For any inquiries or concerns regarding the safety of this product, please reach out to the relevant authorities or consult the EU's Safety Gate platform for updates on unsafe products and recalls.

By following these safety guidelines, you can ensure a safe and enjoyable reloading experience. Thank you for your commitment to safety and responsible reloading practices.
