

GEN-12 UPPER RECEIVER 12 GAUGE - GEN-12 10.5" UPPER RECEIVER 12 GAUGE

[Shotgun Parts](#) > [Receiver & Action Parts](#) > [Action Parts](#) > [Action Hardware](#)

The GEN12 was not the 1st "AR shotgun", but it is the first to use a standard 308 lower. The GEN12 upper was specifically designed to mate to any DPMS GEN1 308 Lower or other 308 lowers sharing the same pattern. The GEN12 upper will work with either the shorter DPMS buffer tube or the longer Armalite AR10®/ 308 tubes. The center of the upper is the short recoil system which cycles the action. This means there is no gas tube or piston. The cyclic rate can be tuned by adjusting buffer weights and springs by the end user. The upper will cycle birdshot or magnums and most everything in between. It reliably feeds both 2 ¾" shells and 3" shells on a standard short DPMS 308 buffer and spring. However they recommend a H3 buffer or a Hydraulic buffer when shooting magnums or any 3". These uppers are compatible with SGM Tactical Saiga 12 choke tubes with external threads. This is sold as an upper so this does not require a FFL to purchase; however, you are responsible to know the laws in your state and purchase accordingly. Some Assembly required: Do to the shock and recoil from the 12 gauge, and the inherent differences within magazine geometry, you will be provided several parts to replace on your DMPS GEN1 patterned lower to ensure functionality and compatibility. BEEF UP KIT: Magazine catch & increased power spring Bolt catch & increased power spring Anti-rotation trigger pin set ***These parts need to be installed.

Attributes

- Name: [GEN-12 10.5" UPPER RECEIVER 12 GAUGE](#)

Safety Instruction Guide for GEN12 Upper Receiver 12 Gauge

Introduction

Thank you for choosing the GEN12 Upper Receiver 12 Gauge. This product is designed for use with a standard .308 lower receiver. It is essential to follow the safety guidelines outlined in this document to ensure safe and effective operation. This guide complies with the EU General Product Safety Regulation (GPSR) to provide you with the necessary information regarding product safety, installation, usage, and disposal.

General Safety Guidelines

To ensure the safe use of the GEN12 Upper Receiver, please adhere to the following guidelines:

- Always handle firearms responsibly and in accordance with local laws and regulations.
- Ensure that the product is used only by individuals who are familiar with firearm operation and safety protocols.
- Store the product in a secure location, away from children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

When using the GEN12 Upper Receiver, please observe the following safety precautions:

- Always wear appropriate eye and ear protection when operating the firearm.
- Ensure that the firearm is unloaded when installing or adjusting the upper receiver.
- Use only recommended ammunition types to avoid malfunctions or injuries.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not modify the upper receiver or its components in any way that could affect its safety or performance.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Follow these instructions carefully to ensure proper installation and safe usage of the GEN12 Upper Receiver:

Installation Instructions

1. Preparation:

- Gather all necessary tools and components, including the GEN12 Upper Receiver and your DPMS GEN1 .308 lower receiver.
- Ensure that the workspace is clean and free from distractions.

2. Assembly:

- Remove the existing upper receiver from the lower receiver.
- Install the GEN12 Upper Receiver onto the DPMS GEN1 lower by aligning the receiver and securing it with the provided takedown pins.
- Install the BEEF UP KIT components:
 - Magazine catch and increased power spring

- Bolt catch and increased power spring
- Antirotation trigger pin set
- Ensure all parts are securely installed and functioning correctly.

3. **Buffer Tube Installation:**

- Choose between the shorter DPMS buffer tube or the longer Armalite AR10®/308 tube.
- Install the buffer tube according to the manufacturer's instructions.

4. **Final Checks:**

- Inspect the assembly for any loose parts or misalignments.
- Ensure that the upper receiver cycles smoothly by manually cycling the action without ammunition.

Usage Instructions

1. **Loading:**

- Load only 2 ¾" or 3" shells into the magazine.
- Ensure that the magazine is securely attached to the lower receiver.

2. **Firing:**

- Always point the firearm in a safe direction.
- Ensure that the safety mechanism is engaged until you are ready to fire.
- Fire in controlled bursts to maintain accuracy and control.

3. **PostUse:**

- After use, unload the firearm and clean the upper receiver according to the manufacturer's recommendations.
- Store the firearm in a secure place.

Disposal Instructions

When disposing of the GEN12 Upper Receiver, please follow these guidelines:

- Dispose of the product in accordance with local regulations regarding firearm components and hazardous materials.
- Do not discard the product in regular household waste.
- Contact local authorities or licensed waste disposal facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the GEN12 Upper Receiver, please refer to the manufacturer's official website or customer service resources. It is essential to stay informed and seek assistance when needed to ensure safe operation and compliance with regulations.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the GEN12 Upper Receiver 12 Gauge safely and responsibly.
