

CUSTOM GRADE STANDARD SEATING DIES - CUSTOM GRADE 6MM ARC BULLET SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Hornady's Custom Grade New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Custom Grade Seater dies include a sliding alignment sleeve which holds the bullet, case mouth, and seater stem in alignment before the bullet enters the case mouth. Seater dies include a built-in crimp ring which can be used or raised for no crimp. All dies come with the popular double-flat Hornady die lock rings installed and a custom plastic die box.

CUSTOM GRADE STANDARD SEATING DIES

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing Hornady's Custom Grade Standard Seating Dies. These dies are designed for safe and effective reloading of 6 mm ARC ammunition. This guide provides essential safety instructions and guidelines to ensure your safe use of this product. Please read and follow these instructions carefully.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety instructions.
- Ensure that you are in a wellventilated area while reloading.
- Keep the workspace clean and organized to avoid accidents.
- Store all reloading materials, including dies, in a safe place away from children and unauthorized users.
- Familiarize yourself with the specific risks associated with reloading ammunition.

Specific Safety Precautions for Use

- **Wear Safety Gear:** Always wear safety glasses and appropriate protective gear when reloading.
- **Inspect Equipment:** Regularly check your dies and reloading equipment for any signs of wear or damage.
- **Avoid Overcharging:** Follow the manufacturer's guidelines for powder charges to prevent overloading cases.
- **Stay Focused:** Do not reload when you are tired, under the influence of drugs or alcohol, or distracted.
- **Use Proper Techniques:** Ensure that all components are aligned correctly before seating bullets.

Instructions for Installation and Usage

1. Installation of the Die:

- Ensure your reloading press is securely mounted.
- Remove the die from its packaging and inspect it for any damage.
- Install the die into the press by screwing it in until snug. Do not overtighten.
- Adjust the die according to the manufacturer's specifications for bullet seating depth.

2. Using the Die:

- Prepare your cases by ensuring they are clean and free of debris.
- Place a case into the shell holder of the press.
- Insert a bullet into the case mouth.
- Raise the handle of the press to seat the bullet. The sliding alignment sleeve will hold the bullet and case mouth in alignment.
- If desired, adjust the builtin crimp ring for crimping or no crimp based on your reloading requirements.

3. PostUsage:

- After use, clean the dies to remove any residue or debris.
- Store the dies in the provided custom plastic box to protect them from damage.

Disposal Instructions

- Dispose of any used or damaged reloading materials in accordance with local regulations.
- Never dispose of ammunition or components in regular household waste.
- Contact your local waste management authority for guidance on safe disposal practices.

Contact Information for Further Support

For questions or concerns regarding the use of Hornady's Custom Grade Standard Seating Dies, please consult the manufacturer's website or customer service resources available in your region.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience. Stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for prioritizing safety in your reloading practices.
