

M-BRACE SCOPE MOUNTS - AMERICAN RIFLE COMPANY 34MM 1.26" 20 MOA SCOPE MOUNT BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The M-BRACE Scope Mounting System embodies an evolutionary step taken from ARC's successful M10 Scope Rings that have served thousands of riflemen for over a decade. It is an engineered product standing alone in stark contrast to the conveniently designed gadgets for which engineering was never a consideration. NOTE: When attached to the far aft recoil slot in the picatinny rail on an action with 90 degree bolt rotation, the 32mm height M-BRACE serrated interface block may interfere with the bolt handle when opened. This issue can usually be avoided by moving the mount forward 1 slot in the picatinny rail. Torque spec: 6.2 Nm (55 in-lbs) on scope clamp and rail mount screws. Torque spec: 3.4 Nm (30 in-lbs) on bubble level screw.

Attributes

- Name: [AMERICAN RIFLE COMPANY 34MM 1.26" 20 MOA SCOPE MOUNT BLACK](#)
- Manufacturer: [AMERICAN RIFLE COMPANY](#)
- Product no.: 100050413
- Mfr. No.: MB-M-34-32-20
- Elevation: 20 MOA
- Finish: Black
- Height: 1.26"
- Scope Tube Diameter: 34mm
- Style: Picatinny
- Delivery weight: 0.404kg
- Shipping height: 89mm
- Shipping width: 76mm
- Shipping length: 140mm
- UPC: 810094450335

MBRACE Scope Mount Safety Instruction Guide

Introduction

Thank you for choosing the MBRACE Scope Mount by American Rifle Company. This guide provides essential safety instructions and information to ensure the safe and effective use of your scope mount. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the product for any signs of damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use protective eyewear when handling or adjusting the scope mount.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- When mounting the scope, ensure that the mounting surface is clean and free of debris.
- Be mindful of the height of the mount. If using with a 90degree bolt rotation action, ensure that the mount does not interfere with the bolt handle.
- If interference occurs, adjust the mount forward by one slot on the picatinny rail.
- Always adhere to the specified torque settings:
 - 6.2 Nm (55 inlbs) for scope clamp and rail mount screws.
 - 3.4 Nm (30 inlbs) for the bubble level screw.
- Regularly check the tightness of all screws and the integrity of the mount during use.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a torque wrench.
- Ensure the mounting area is clean and dry.

2. Installation

- Align the MBRACE scope mount with the picatinny rail on your rifle.
- Insert the screws into the designated holes of the mount.
- Using a torque wrench, tighten the screws to the specified torque settings (6.2 Nm for scope clamp and rail mount screws, 3.4 Nm for the bubble level screw).
- Doublecheck that the mount is securely fastened and does not move.

3. Usage

- When using the rifle, be aware of the mount's height and potential interference with the bolt handle.
- If any issues arise during usage, cease operation immediately and inspect the mount.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the MBACE Scope Mount, please refer to your local retailer or the manufacturer's website for support and additional information.

By following these safety guidelines, you can ensure the safe and effective use of your MBACE Scope Mount. Thank you for your attention to these important safety instructions.
