

# M-BRACE SCOPE MOUNTS - AMERICAN RIFLE COMPANY 34MM 1.26" 60 MOA SCOPE MOUNT BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The M-BRACE Scope Mounting System embodies an evolutionary step taken from ARC's successful M10 Scope Rings that have served thousands of riflemen for over a decade. It is an engineered product standing alone in stark contrast to the conveniently designed gadgets for which engineering was never a consideration. NOTE: When attached to the far aft recoil slot in the picatinny rail on an action with 90 degree bolt rotation, the 32mm height M-BRACE serrated interface block may interfere with the bolt handle when opened. This issue can usually be avoided by moving the mount forward 1 slot in the picatinny rail. Torque spec: 6.2 Nm (55 in-lbs) on scope clamp and rail mount screws. Torque spec: 3.4 Nm (30 in-lbs) on bubble level screw.

## Attributes

- Name: [AMERICAN RIFLE COMPANY 34MM 1.26" 60 MOA SCOPE MOUNT BLACK](#)
- Manufacturer: [AMERICAN RIFLE COMPANY](#)
- Product no.: 100050416
- Mfr. No.: MB-M-34-32-60
- Elevation: 60 MOA
- Finish: Black
- Height: 1.26"
- Scope Tube Diameter: 34mm
- Style: Picatinny
- Delivery weight: 0.404kg
- Shipping height: 89mm
- Shipping width: 76mm
- Shipping length: 140mm
- UPC: 810094450366

# MBRACE Scope Mount Safety Instruction Guide

## Introduction

Thank you for choosing the MBRACE Scope Mount by American Rifle Company. This guide provides essential safety instructions to ensure the safe and effective use of your scope mount. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that all components are free from defects before installation.
- Always handle the mount with care to avoid injury.
- Use the scope mount only for its intended purpose as described in this guide.
- Keep the product out of reach of children to prevent accidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Potential Hazards:** Interference with bolt handle when the mount is attached to the far aft recoil slot on actions with 90degree bolt rotation.
- **Avoiding Hazards:** If you experience interference, move the mount forward 1 slot in the picatinny rail.
- **Torque Specifications:** Use a torque wrench to ensure proper installation. Torque the scope clamp and rail mount screws to 6.2 Nm (55 inlbs). Torque the bubble level screw to 3.4 Nm (30 inlbs).
- **Installation Location:** Ensure the mount is securely attached to a compatible picatinny rail.

## Instructions for Installation and Usage

1. **Preparation:** Gather all necessary tools, including a torque wrench. Ensure the rifle is unloaded and pointed in a safe direction.
2. **Installation:**
  - Locate the picatinny rail on your rifle.
  - Position the MBRACE Scope Mount on the rail.
  - Ensure the mount is aligned correctly and does not obstruct any moving parts.
  - Secure the mount by tightening the screws to the specified torque settings.
3. **Usage:**
  - After installation, check that the scope is securely mounted and properly aligned.
  - Regularly inspect the mount for any signs of wear or damage.
  - If any issues are detected, discontinue use and consult a professional.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- Check for any specific disposal guidelines regarding materials used in the scope mount.

## Contact Information for Further Support

For any questions or concerns regarding the MBRACE Scope Mount, please refer to your retailer or manufacturer for support. Ensure you have the product details and any relevant information available for assistance.

By following these guidelines, you can ensure a safe and effective experience with your MBRACE Scope Mount.

Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
