

M-BRACE SCOPE MOUNTS - AMERICAN RIFLE COMPANY 36MM 1.26" 0 MOA SCOPE MOUNT BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The M-BRACE Scope Mounting System embodies an evolutionary step taken from ARC's successful M10 Scope Rings that have served thousands of riflemen for over a decade. It is an engineered product standing alone in stark contrast to the conveniently designed gadgets for which engineering was never a consideration. NOTE: When attached to the far aft recoil slot in the picatinny rail on an action with 90 degree bolt rotation, the 32mm height M-BRACE serrated interface block may interfere with the bolt handle when opened. This issue can usually be avoided by moving the mount forward 1 slot in the picatinny rail. Torque spec: 6.2 Nm (55 in-lbs) on scope clamp and rail mount screws. Torque spec: 3.4 Nm (30 in-lbs) on bubble level screw.

Attributes

- Name: [AMERICAN RIFLE COMPANY 36MM 1.26" 0 MOA SCOPE MOUNT BLACK](#)
- Manufacturer: [AMERICAN RIFLE COMPANY](#)
- Product no.: 100050429
- Mfr. No.: MB-M-36-32-00
- Elevation: 0 MOA

MBRACE Scope Mounts Safety Instruction Guide

Introduction

Thank you for choosing the MBRACE Scope Mount from American Rifle Company. This product is designed to enhance your shooting experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the MBRACE Scope Mount is used only for its intended purpose.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the scope mount out of reach of children and unauthorized users.
- Inspect the scope mount regularly for any signs of wear or damage.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- When attaching the MBRACE Scope Mount, ensure that it is securely fitted to avoid any movement during use.
- Be aware of the potential for interference with the bolt handle when using the mount in conjunction with certain rifle actions. If interference occurs, adjust the mount position as necessary.
- Do not exceed the recommended torque specifications when tightening screws:
 - Scope clamp and rail mount screws: 6.2 Nm (55 inlbs)
 - Bubble level screw: 3.4 Nm (30 inlbs)
- Avoid using the scope mount in extreme weather conditions that may affect its performance.

Instructions for Installation and Usage

1. Installation:

- Ensure that your rifle is unloaded and pointed in a safe direction before beginning installation.
- Identify the picatinny rail on your rifle where the scope mount will be attached.
- Align the MBRACE Scope Mount with the desired slot on the picatinny rail.
- Secure the mount using the provided screws, ensuring that you do not exceed the specified torque limits.

2. Usage:

- Once installed, check the alignment of your scope and make any necessary adjustments.
- When using the rifle, always maintain a proper shooting stance and ensure that your finger is off the trigger until ready to shoot.
- After use, store the rifle and scope mount in a safe and secure location.

Disposal Instructions

- When disposing of the MBRACE Scope Mount, follow local regulations for the disposal of metal products.
- Consider recycling the product when possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or concerns regarding the MBRACE Scope Mount, please refer to the contact information provided on the packaging or the manufacturer's website.

By following these guidelines, you can ensure a safe and enjoyable experience with your MBACE Scope Mount.
Thank you for your attention to safety.
