

M-BRACE SCOPE MOUNTS - AMERICAN RIFLE COMPANY 36MM 1.26" 30 MOA SCOPE MOUNT BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The M-BRACE Scope Mounting System embodies an evolutionary step taken from ARC's successful M10 Scope Rings that have served thousands of riflemen for over a decade. It is an engineered product standing alone in stark contrast to the conveniently designed gadgets for which engineering was never a consideration. NOTE: When attached to the far aft recoil slot in the picatinny rail on an action with 90 degree bolt rotation, the 32mm height M-BRACE serrated interface block may interfere with the bolt handle when opened. This issue can usually be avoided by moving the mount forward 1 slot in the picatinny rail. Torque spec: 6.2 Nm (55 in-lbs) on scope clamp and rail mount screws. Torque spec: 3.4 Nm (30 in-lbs) on bubble level screw.

Attributes

- Name: [AMERICAN RIFLE COMPANY 36MM 1.26" 30 MOA SCOPE MOUNT BLACK](#)
- Manufacturer: [AMERICAN RIFLE COMPANY](#)
- Product no.: 100050432

MBRACE Scope Mount Safety Instructions

Introduction

Thank you for choosing the MBRACE Scope Mount by American Rifle Company. This product is designed to enhance your shooting experience by providing a reliable and secure mounting solution for your scope. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the MBRACE Scope Mount is used only for its intended purpose as specified in this guide.
- Keep the product out of reach of children and vulnerable individuals who may not understand its use or potential hazards.
- Regularly inspect the scope mount for any signs of damage or wear before each use.
- If you notice any defects or malfunctions, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Always ensure that the scope mount is securely attached to the rifle before use.
- When using the MBRACE Scope Mount, be aware of the bolt handle position. The 32mm height serrated interface block may interfere with the bolt handle when opened if attached to the far aft recoil slot. To avoid this, move the mount forward by one slot on the picatinny rail.
- Follow the torque specifications provided:
 - 6.2 Nm (55 inlbs) on the scope clamp and rail mount screws.
 - 3.4 Nm (30 inlbs) on the bubble level screw.
- Use only compatible scopes with a 36mm tube diameter to ensure proper fit and function.

Instructions for Installation and Usage

1. Installation:

- Begin by cleaning the picatinny rail on your rifle to ensure a secure attachment.
- Align the MBRACE Scope Mount with the desired slot on the picatinny rail.
- Securely attach the mount using the provided screws, ensuring that the torque specifications are met.
- If necessary, adjust the mount forward to prevent interference with the bolt handle.

2. Usage:

- Once installed, check that the scope is properly mounted and aligned.
- Make any necessary adjustments to the scope settings before taking your rifle to the range or field.
- Always handle the rifle with care and treat it as if it is loaded, even when not in use.

Disposal Instructions

- Dispose of the MBRACE Scope Mount responsibly.
- If the product is no longer usable, consider recycling materials where possible.
- Follow local regulations for the disposal of metal and plastic components.

Contact Information for Further Support

For any questions or concerns regarding the MBRACE Scope Mount, please contact the manufacturer or your

point of purchase for assistance. Ensure that you have the product details and any relevant information ready for a smoother support experience.

Conclusion

The MBACE Scope Mount is a highquality product designed for the serious rifleman. By following these safety instructions, you can ensure a safe and enjoyable experience. Remember to regularly check for updates on product safety and recalls through the relevant authorities. Thank you for your attention to safety, and enjoy your shooting experience!
