

## 2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 44 CALIBER (0.429") 240GR ROUND NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

### Attributes

- Name: [LEE PRECISION 44 CALIBER \(0.429"\) 240GR ROUND NOSE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053311
- Mfr. No.: 90341
- Bullet Style: -
- Bullet Weight (Grains): 240
- Caliber: 44 Caliber
- Cavities: 2
- Diameter (in): 0.429
- Delivery weight: 0.388kg
- Shipping height: 51mm
- Shipping width: 64mm
- Shipping length: 267mm
- UPC: 734307903411

# Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

## Introduction

Thank you for choosing the Lee Precision 2 Cavity Pistol Bullet Molds for your casting needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the molds.

## General Safety Guidelines

- Always prioritize safety when handling casting equipment and materials.
- Ensure that you are using the molds in a wellventilated area to avoid inhalation of fumes.
- Keep the molds away from children and pets to prevent accidents.
- Regularly inspect the molds for any signs of damage or wear before each use.
- Follow all local laws and regulations regarding the use and storage of ammunition components.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) including safety glasses, heatresistant gloves, and long sleeves to protect against burns and splashes.
- Ensure that the casting area is free from flammable materials to minimize fire risks.
- Do not exceed the recommended temperature when melting lead or other materials, as overheating can lead to dangerous situations.
- Use proper tools and techniques when handling molten metal to prevent spills and splashes.
- Always allow the molds to cool down completely before handling them after use.

## Instructions for Installation and Usage

### 1. Setup:

- Place the mold on a stable, heatresistant surface.
- Ensure that the mold is clean and free of debris before use.

### 2. Melting Lead:

- Use a lead melting pot or furnace that is suitable for the type of metal being used.
- Follow the manufacturer's instructions for the melting equipment.

### 3. Pouring:

- Carefully pour the molten metal into the mold cavities, avoiding overfilling.
- Use a ladle or pouring spout designed for this purpose to minimize spills.

### 4. Cooling:

- Allow the poured bullets to cool completely in the mold before attempting to remove them.
- Do not force bullets out of the mold; gently tap or use a bullet puller if necessary.

### 5. Cleaning:

- After use, clean the molds with a soft brush or cloth to remove any residue.
- Store the molds in a dry place to prevent rust and corrosion.

## **Disposal Instructions**

- Dispose of any waste materials, such as excess lead or metal shavings, in accordance with local regulations regarding hazardous waste.
- Do not dispose of lead or metal in regular trash; contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For questions or concerns regarding the safety and use of the Lee Precision 2 Cavity Pistol Bullet Molds, please contact the manufacturer or your local dealer. They can provide assistance and address any safety inquiries.

By adhering to these safety guidelines, you can ensure a safe and enjoyable experience while using the Lee Precision 2 Cavity Pistol Bullet Molds. Always prioritize safety and stay informed about best practices for casting and handling materials.
