

6 CAVITY HANDGUN MOULDS - LEE PRECISION 44 CALIBER (0.429") 240GR 2-RADIUS OGIVE 6-CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

The Lee 6 Cavity Handgun moulds are made for heavy duty volume production. Moulds and blocks have steel bushings and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary moulds. The sprue plate is hard anodized and held down with wave washers at each end. All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. Does not include handles.

Attributes

- Name: [LEE PRECISION 44 CALIBER \(0.429"\) 240GR 2-RADIUS OGIVE 6-CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053337
- Mfr. No.: 90339
- Bullet Weight (Grains): 240
- Caliber: 44 Caliber
- Cavities: 6
- Diameter (in): 0.429
- Delivery weight: 0.431kg
- Shipping height: 46mm
- Shipping width: 112mm
- Shipping length: 340mm
- UPC: 734307903398

Safety Instruction Guide for Lee 6 Cavity Handgun Moulds

Introduction

Thank you for choosing the Lee 6 Cavity Handgun Moulds. This guide provides important safety instructions and usage guidelines to ensure your safety and the effective use of this product. Please read this guide carefully before using the moulds.

General Safety Guidelines

- Ensure the mould is used in a wellventilated area to avoid inhaling fumes from the melting materials.
- Always wear appropriate personal protective equipment (PPE), including safety goggles, heatresistant gloves, and a protective apron.
- Keep the mould out of reach of children and pets to prevent accidents.
- Regularly inspect the mould for any signs of wear or damage before use.
- Do not use the mould for any purpose other than its intended use as specified in this guide.

Specific Safety Precautions for Use

- **Heat Safety:** The mould can become extremely hot during use. Always handle with caution and use heatresistant gloves.
- **Material Safety:** Ensure that the materials used in the moulding process are safe and suitable for the intended application.
- **Fume Safety:** Be aware of any fumes that may be released during the melting process. Use in a wellventilated area and consider using a fume extractor if necessary.
- **Electrical Safety:** If using electric melting equipment, ensure all electrical connections are secure and follow the manufacturer's safety instructions.
- **Transportation Safety:** When transporting the mould, ensure it is securely packed to prevent damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure your work area is clean and organized.
- Gather all necessary materials and tools before beginning.

2. Setting Up the Mould:

- Place the mould on a stable, heatresistant surface.
- Ensure the camoperated sprue plate is properly attached and functioning.

3. Melting the Material:

- Follow the manufacturer's instructions for melting your chosen material.
- Once melted, carefully pour the material into the mould cavities.

4. Cooling:

- Allow the mould to cool according to the material manufacturer's specifications.
- Do not attempt to remove the bullets from the mould until fully cooled.

5. Removing the Bullets:

- Once cooled, carefully open the mould and remove the bullets.
- Inspect the bullets for any defects before use.

6. Cleaning and Maintenance:

- Clean the mould after each use to prevent buildup of material.
- Store the mould in a dry and safe location when not in use.

Disposal Instructions

- Dispose of any waste materials according to local regulations.
- Do not dispose of the mould in regular household waste if it is damaged. Instead, contact local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the contact information provided with your purchase or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience when using the Lee 6 Cavity Handgun Moulds. Always prioritize safety and stay informed about best practices in moulding.
