

# T3/T3X CTR AICS BOTTOM METAL SHORT ACTION - MOUNTAIN TACTICAL T3/T3X SA CTR AICS BOTTOM METAL

[Rifle Parts](#) > [Receiver Parts](#) > [Bottom Metals](#)

Every Tikka Shooter knows Tikka makes an excellent rifle system and the CTR has been no exception. Since the launch of the CTR, Tikka has increased its sales and market share substantially. What's not to like about an affordable rifle that comes from the factory set up to accept a muzzle device, decent optic rail, and 10 round capacity? Except the magazines.... Those magazines are EXPENSIVE! On top of that, availability is a major issue. Here's the solution. A drop-in bottom metal that converts your CTR to accept industry standard AICS and AICS clone magazines. AICS compatible magazines are available from vendors worldwide. The Mountain Tactical AICS Conversion Kit for the CTR has a large, beveled magazine well designed to make mag changes quick and effortless. The magazine well allows for positive engagement with the action when the mag catch is secure and releases the magazine to fall free from the rifle once the mag catch is pressed. The ergonomic mag catch has no sharp edges that could snag on clothing or gear.

A barricade stop is machined onto the front of the magazine well creating a secure point to hold the rifle system steady without compromising the reliability of feeding the next round into the chamber. The trigger guard is enlarged to facilitate gloved hands without compromising safety. An additional benefit of this bottom metal is the fact that it simplifies the conversion of any Tikka rifle to accept AICS compatible magazines. Since we are utilizing an OEM factory inlet, you can purchase any aftermarket stock inlet for the CTR and this bottom metal will drop in to convert your standard T3 or T3x rifle to accept AICS magazines. No gunsmithing or special inletting required! It is possible to modify an existing T3 or T3x stock to accept this bottom metal. A competent gunsmith can relieve the material from your stock to allow this bottom metal to be installed. Magazine Compatibility: Drop-In - All known metal AICS and AICS Clones Need modification - Magpul Pmags and AICS 223 polymer magazines (material outside the feed lips must be removed) Specifications: Mag Catch Material - Stainless Steel Mag Catch Finish - Mill Finish Bottom Metal Body - 6061-T6 Billet Aluminum Bottom Metal Finish -Mil-Spec Hard Anodized

## Attributes

- Name: [MOUNTAIN TACTICAL T3/T3X SA CTR AICS BOTTOM METAL](#)
- Manufacturer: [MOUNTAIN TACTICAL](#)
- Product no.: 100061484

# Safety Instruction Guide for T3/T3X CTR AICS Bottom Metal

## Introduction

Thank you for choosing the T3/T3X CTR AICS Bottom Metal by Mountain Tactical. This product is designed to enhance your Tikka rifle's compatibility with AICS magazines, ensuring a seamless shooting experience. This safety instruction guide provides essential information for the safe use, installation, and maintenance of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle firearms with care and follow all applicable safety regulations.
- Ensure that the T3/T3X CTR AICS Bottom Metal is installed correctly to avoid malfunctions.
- Regularly inspect the product for signs of wear or damage.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe conditions or incidents to the relevant authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Firearm Safety:** Always treat your firearm as if it is loaded. Keep the muzzle pointed in a safe direction.
- **Installation Safety:** Ensure the firearm is unloaded before attempting to install or modify any components.
- **Magazines:** Use only compatible AICS magazines as specified. Avoid using damaged or worn magazines.
- **Modification Warning:** If you choose to modify your stock to accept this bottom metal, ensure it is done by a competent gunsmith to prevent damage or safety issues.
- **Gloved Hands:** The enlarged trigger guard accommodates gloved hands. Ensure that gloves do not interfere with your ability to operate the firearm safely.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, including screwdrivers and any required hardware.

### 2. Installation Steps:

- Remove the existing bottom metal from your T3 or T3x rifle by unscrewing it from the stock.
- Align the Mountain Tactical AICS Bottom Metal with the factory inlet of your rifle.
- Secure the bottom metal in place using the provided screws. Ensure they are tightened adequately but do not overtighten to avoid damaging the material.
- Check the magazine well for proper fit and ensure it allows for easy magazine insertion and removal.

### 3. Usage:

- Load compatible AICS magazines into the magazine well.
- Ensure the magazine catch is functioning correctly; the magazine should be securely held in place and release freely when the catch is pressed.
- Before firing, doublecheck that the firearm is in safe working condition and that all components are securely installed.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local regulations.
- If the bottom metal or any associated components become damaged beyond repair, consult local waste management guidelines for disposal.
- Do not dispose of firearms or firearm components in regular trash. Follow local laws for the safe disposal of these items.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the T3/T3X CTR AICS Bottom Metal, please refer to the manufacturer's website or contact the designated support channels provided during your purchase.

By following these safety instructions, you can ensure a safe and enjoyable experience with your T3/T3X CTR AICS Bottom Metal. Thank you for your attention to safety and responsible firearm handling.
