

REPLACEMENT LIGHT BODIES - MODLITE SYSTEMS 18350 BODY FDE -SCOUT WML

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Weapon Lights](#)

Lightweight Weapon Light Replacement Body

The Modlite light 18350 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and the KE2-DF head. This is the only Surefire light head that it is compatible with. It is approximately 1.25 inches shorter and about 1.5 oz. lighter than a M600DF body with battery. This allows for additional rail space especially on SBR and pistol builds. The Modlite 18350 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. This light body accepts 18350 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 18350 1200mAh cells. Runtime is about 35-40 minutes with these cells. The Modlite light 18650 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and KE2-DF heads. It will also fit all Modlite light heads. The Modlite 18650 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. Modlite recommends and sells the Arisaka Defense mounts. This light body accepts 18650 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 3500mAh cells. Runtime is about 75-80 minutes with these cells. The Modlite 18650 light body is NOT compatible with the Surefire older Scout light heads.

Safety Instruction Guide for Modlite 18350 and 18650 Light Bodies

Introduction

Thank you for choosing the Modlite 18350 and 18650 Light Bodies. These products are designed to enhance your weapon lighting system while ensuring safety and performance. This guide provides essential safety instructions and guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Ensure the safe use of the Modlite light bodies by following all instructions and safety precautions.
- **Enhanced Recalls:** Be aware that should any safety issues arise, standardized recall notices will be issued, and free remedies will be provided for dangerous products.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For safety inquiries, ensure you have access to an EU-based contact.
- **Rapid Alerts:** Stay informed about any safety updates by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Battery Usage:**
 - Use only 18350 or 18650 lithium cells as specified.
 - Do not use lithium CR123 cells, as they may cause overheating, explosion, or fire.
- **Recommended Batteries:**
 - For the 18350 Light Body, use KeepPower high drain 18350 1200mAh cells.
 - For the 18650 Light Body, use KeepPower high drain 3500mAh cells.
- **Compatibility:** Ensure that you are using the Modlite light bodies with compatible Surefire® Scout Light M600DF weapon lights and heads.
- **Installation:** Follow the installation instructions carefully to avoid any hazards.
- **Heat Management:** Monitor the light body during use. If it becomes excessively hot, discontinue use immediately.
- **Storage:** Store the light bodies in a cool, dry place, away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Installation:

- Ensure the light body is compatible with your Surefire® Scout Light M600DF or Modlite light heads.
- Remove the existing light body by unscrewing it from the mount.
- Attach the Modlite light body by aligning it with the mounting holes and securing it in place.
- Ensure that the square lug interface is properly seated.

2. Battery Installation:

- For the 18350 Light Body, insert an 18350 lithium cell into the battery compartment.
- For the 18650 Light Body, insert an 18650 lithium cell into the battery compartment.
- Ensure the battery is inserted with the correct polarity (+/-).

3. Usage:

- Turn on the light by pressing the tailcap switch or the designated activation button.
- Use the light body as intended, ensuring that it is securely mounted to your weapon system.
- Monitor the runtime, which is approximately 3540 minutes for the 18350 and 7580 minutes for the 18650, based on the recommended batteries.

4. Safety Checks:

- Before each use, inspect the light body for any signs of damage or wear.
- Ensure that all connections are secure and that there are no obstructions in the light path.

Disposal Instructions

- Dispose of the Modlite light bodies and batteries in accordance with local regulations.
- Do not throw batteries in household waste. Instead, take them to a designated battery recycling facility.
- If the light body is damaged beyond repair, contact your local waste management authority for proper disposal options.

Contact Information for Further Support

For additional support or inquiries, please refer to the manufacturer's website or customer service channels.

By following these safety instructions, you can ensure a safe and effective experience with your Modlite 18350 and 18650 Light Bodies. Thank you for prioritizing safety and compliance.
