

SST-ML BULLETS WITH SABOTS - 45 CAL SABOT/40 CAL 200GR SST 20/BOX

[Reloading](#) > [Muzzleloading Components](#) > [Bullets](#)

The SST-ML is the best long-range muzzleloader bullet in the business. Other "easy-load" bullets often fail to properly engage the rifling which does not effectively stabilize the bullet, and as a result, accuracy suffers. But Hornady sabots fully engage the rifling to keep the SST-ML centered and sealed during firing, allowing for maximum velocity and unparalleled long range performance. Upon impact, the Flex Tip is compressed into the front of the bullet, causing the bullet to expand.

Attributes

- Name: [45 CAL SABOT/40 CAL 200GR SST 20/BOX](#)
- Manufacturer: [HORNADY](#)
- Product no.: 100200049
- Mfr. No.: 67132

Safety Instruction Guide for SSTML Bullets with Sabots

Introduction

Thank you for purchasing the SSTML Bullets with Sabots. This product is designed for maximum performance and accuracy in longrange muzzleloader shooting. However, it is important to follow safety guidelines to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR). This guide provides essential safety instructions and precautions.

General Safety Guidelines

- Always treat all firearms and ammunition as if they are loaded.
- Store ammunition in a secure location, away from children and unauthorized users.
- Use only in accordance with local laws and regulations regarding firearms and ammunition.
- Inspect bullets for any visible damage before use.
- Follow all manufacturer instructions and guidelines for use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that you are using the correct caliber of bullets for your muzzleloader.
- Do not mix different types of ammunition or components.
- Always wear appropriate safety gear, including eye and ear protection, when handling or firing ammunition.
- Only load and fire in a controlled environment, free from obstructions and flammable materials.
- Keep bystanders at a safe distance when firing.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your muzzleloader is clean and in good working condition.
- Verify that you have the appropriate caliber and type of SSTML bullets.

2. Loading:

- Carefully insert the SSTML bullet into the muzzleloader.
- Ensure that the sabot is properly seated and fully engaged with the rifling.
- Avoid excessive force when loading to prevent damage to the bullet or firearm.

3. Firing:

- Position yourself in a stable and safe shooting stance.
- Aim at a designated target, ensuring that the area is clear of people and animals.
- Follow all standard safety procedures for firing a firearm.

4. PostFiring:

- After firing, unload the firearm according to the manufacturer's instructions.
- Clean the firearm thoroughly to maintain optimal performance and safety.

Disposal Instructions

- Dispose of any unused or damaged bullets in accordance with local hazardous waste regulations.
- Do not throw away bullets in regular household trash.
- Contact local authorities or waste management services for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the SSTML Bullets with Sabots, please refer to the manufacturer's contact information provided on the packaging or visit the official website.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your SSTML Bullets with Sabots. Always prioritize safety and compliance with local regulations when handling firearms and ammunition. Thank you for choosing our product.
