

1911 SLIDES - CASPIAN STAINLESS STEEL, LOW MOUNT SIGHT CUT, 45 ACP

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

Superb Strength & Precise Tolerances For The Ultimate Combat Pistol

Custom-quality slides from Caspian, ready to be fitted to the frame of your choice. They start as high-quality forgings for extra strength, then are heat-treated to Rc 38-41 before machining for exceptional dimensional stability. Sides are polished, while the rest of the surface is bead-blasted for a non-glare, matte finish. Deep-cut, forward-angled rear cocking serrations prevent slippage when racking, even with a wet hand. Available in 4340 carbon steel (CS) and 416 stainless steel (SS) with .45 ACP, .40 S&W, and 9mm breechfaces. Commander and Officers models in .45 ACP only. Choose a slide without sight cuts (NC), or between two pre-cut dovetail options: a Novak Low-Mount or Bo-Mar BMCS rear cut, both coupled with a Novak front cut. Recon slide is a Government slide with ball cuts at the front that line up with the light rail on the Caspian Recon frame (available separately). All slides require the use of a 9mm/.38 Super firing pin.

Attributes

- Name: [CASPIAN STAINLESS STEEL, LOW MOUNT SIGHT CUT, 45 ACP](#)

Safety Instruction Guide for 1911 Slides Caspian Stainless Steel

Introduction

Thank you for choosing the 1911 Slides Caspian Stainless Steel. This guide provides essential safety instructions and guidelines to ensure the safe use and handling of this product. Please read this document carefully before using the slide.

General Safety Guidelines

- Ensure that the slide is compatible with your specific 1911 frame before installation.
- Always handle the slide with care to avoid injury.
- Keep the slide out of reach of children and unauthorized users.
- Regularly inspect the slide for any signs of wear or damage before use.
- Always follow local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

• Installation Precautions:

- Use appropriate tools and follow the installation instructions carefully to avoid damaging the slide or the firearm.

• Handling:

- Always treat the slide as if it is loaded, even if you believe it is not.
- Keep your finger off the trigger until you are ready to fire.

• Shooting Precautions:

- Use only the recommended ammunition (e.g., .45 ACP, .40 S&W, and 9mm).
- Ensure that the range is safe and that you are familiar with the firearm's operation before shooting.

• Maintenance:

- Regularly clean and lubricate the slide according to the manufacturer's recommendations.
- Do not attempt to modify the slide or its components.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a punch, hammer, and any specific tools recommended for your firearm.

2. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the old slide from the frame by following the manufacturer's disassembly instructions.
- Align the new Caspian slide with the frame, ensuring proper fit.
- Secure the slide by reassembling the components as per the firearm's manual.

3. Usage:

- Once installed, perform a function check to ensure the slide operates correctly with the frame.
- Test the firearm in a safe environment before regular use.

Disposal Instructions

- Dispose of any packaging materials responsibly by following local recycling guidelines.
- If the slide becomes damaged beyond repair, consult local regulations for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please reach out to the designated EU contact point associated with this product.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of the 1911 Slides Caspian Stainless Steel. Always prioritize safety and compliance with local laws and regulations. Thank you for your attention to these important safety measures.
