

# RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 7MM-08 REMINGTON FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

## Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

**Note:** If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

# Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS CLYMER 7MM08 REMINGTON FINISHING REAMER

## Introduction

Thank you for choosing the Clymer Rimless Rifle Chambering Reamer for your gunsmithing needs. This guide provides essential safety instructions to ensure safe and effective use of this precision tool. Please read this guide thoroughly before use.

## General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Ensure that the work area is clean, welllit, and free from distractions.
- Keep all tools and equipment in good working condition to avoid accidents.
- Store the reamer in a safe place, out of reach of children and pets.
- Be aware of your surroundings and ensure that no one is in your immediate area while using the reamer.
- Follow all local laws and regulations regarding firearms and gunsmithing.

## Specific Safety Precautions for Use

- Only use the reamer for its intended purpose, which is to chamber rifle barrels.
- Do not exceed the recommended cutting speed for the reamer, as this can lead to overheating and tool damage.
- Always use a proper cutting fluid to reduce friction and heat during operation.
- Inspect the reamer for any signs of damage or wear before each use. Do not use a damaged tool.
- Avoid using excessive force when cutting; let the tool do the work.
- If you experience any unusual vibrations or noises while using the reamer, stop immediately and inspect the tool.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have the correct reamer size for your specific cartridge caliber (7mm08 Remington).
- Gather necessary tools, including a drill press or hand tool capable of accommodating the reamer.

### 2. Installation:

- Secure the reamer in the appropriate holder or chuck.
- Ensure the reamer is properly aligned with the workpiece to avoid misalignment.

### 3. Usage:

- Apply cutting fluid to the reamer and workpiece before starting.
- Begin cutting at a slow speed, gradually increasing as needed.
- Maintain a steady, controlled feed rate to ensure a clean cut.
- Periodically withdraw the reamer to clear chips and apply more cutting fluid as necessary.

### 4. Finishing:

- Once the desired depth is achieved, carefully withdraw the reamer from the workpiece.

- Clean the reamer and work area after use to prevent damage and maintain safety.

## **Disposal Instructions**

- Dispose of any worn or damaged reamers according to local regulations for metal waste.
- Ensure that all cutting fluids and lubricants are disposed of in accordance with environmental regulations.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the Clymer Rimless Rifle Chambering Reamer, please refer to the product packaging for contact details.

## **Conclusion**

By following these safety instructions, you can ensure the safe and effective use of the Clymer Rimless Rifle Chambering Reamer. Always prioritize safety and adhere to best practices in gunsmithing. Thank you for your commitment to safety and precision in your work.
