

REMINGTON 783 SHORT ACTION SCOPE BASES - EGW REMINGTON 783 SHORT ACTION 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington 783 Short Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

Safety Instruction Guide for REMINGTON 783 SHORT ACTION SCOPE BASES

Introduction

Thank you for choosing the EGW Remington 783 Short Action Scope Bases. This guide provides essential safety instructions and guidelines for the proper use, installation, and disposal of the product. Please read the entire guide carefully to ensure safe operation and compliance with EU regulations.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the scope bases for any signs of wear or damage.
- Keep the product out of reach of children and vulnerable individuals.
- If you notice any defects or issues, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the scope bases only with compatible Remington 783 Short Action firearms.
- Ensure that the firearm is unloaded before installing the scope bases.
- Handle the product with care to avoid injury from sharp edges.
- Do not exceed the recommended torque of 20 inch lbs when mounting the bases.
- Always use a drip of blue loctite to secure the screws during installation.
- Be aware of the weight of the scope and ensure the firearm can adequately support it.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a socket head Torx wrench.
- Ensure you have a clean and welllit workspace.

2. Installation Steps

- Ensure the firearm is unloaded and pointed in a safe direction.
- Locate the factory scope mount holes on the receiver of the Remington 783.
- Align the EGW Remington 783 Short Action Scope Bases with the mount holes.
- Insert the socket head Torx screws into the holes and tighten them to the recommended torque of 20 inch lbs.
- Apply a drip of blue loctite to each screw for added security.

3. Usage

- After installation, attach your Picatinny or Weaver scope rings to the bases.
- Adjust the scope for optimal eye relief and alignment.
- Regularly check the tightness of the screws and the integrity of the scope bases during use.

Disposal Instructions

- Follow local regulations for the disposal of metal and aluminum products.
- Do not dispose of the product in regular household waste.
- Consider recycling the product at a designated facility.

Contact Information for Further Support

For any inquiries or further assistance regarding the safety and use of the EGW Remington 783 Short Action Scope Bases, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
