

HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT - SAVAGE ROUND BACK SA 1-PIECE PICATINNY BASE 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Introducing the newest addition to the EGW lineup; our Hunter series picatinny scope mount. EGW saw the need for a shorter, lighter, heavy duty, picatinny scope mount and this is what they came up with. After countless hours of prototyping and testing, the Hunter mount was born. Featuring: 7075 T6 aluminum for an extremely durable yet lightweight construction. Type III hardcoat anodizing protects the mount from whatever nature can throw at it. Chamfered edges provide a snag free hunt. A compact overall length sheds 15% of its weight compared to our other Heavy Duty mounts. Due to the change in which receivers have #6 and #8 screws from Savage, EGW recommends you remove and measure one of the screws prior to purchasing this scope mount. This will ensure that you receive the correct screws necessary for your specific application. Some Savage guns (like the .338 Lapua or 110 BA) require 8-40 screws. EGW now has mounts drilled for #8 screws available for all MOAs. They also have a #8 Drill Out Kit available for customers who would like to drill the mounts out themselves. If you have questions about your specific firearm, or need help regarding the specific screw size, you should contact Savage Customer Support at (413) 568-7001 or (800) 370-0708 and supply them with your serial number. This mount is drilled for and provided with 6-48 Hex Head screws. EGW recommends reviewing their listing below for predrilled #8 mounts if you require #8 screws. Their 8-40 and 6-48 screws utilize the same head design, which allows them to use the same countersink in all of their mounts. If you purchased a mount with the incorrect screws, you can purchase the #8 Drill Out Kit. Rifles requiring #8 screws (please check your individual rifle to be sure): 10/110 BA Stealth 10/110 Stealth Evolution 110 Scout 110 Wolverine 10 GRS 110 Tactical 110 Tactical LH 110 Tactical Desert 110 Ultralite Christensen Arms Ridgeline Screw Diameters #6 Screws - .13" diameter #8 Screws - .16" diameter This mount does NOT fit the 212 EGW Savage bases will work with any long action round back Savage rifle with an ejection port. It is also compatible with the Stevens Long Actions. The round back on this mount will accommodate rounded receivers, and guns that have an accu-trigger. Savages without an accu-trigger will require our flat back mount (listed separately). This mount comes standard with a bevel on both sides making it ambidextrous. EGW recommends measuring the hole spacing in your receiver to confirm it matches with the dimensions they have published. Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. EGW one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. This mount is a Picatinny-style base and compatible with Picatinny or Weaver scope rings. EGW machines these in our shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA. This mount fits: Savage Model 110 Long Action Round Rear Receiver Savage Model 111 Long Action Round Rear Receiver Savage Model 112 Long Action Round Rear Receiver Savage Model 114 Long Action Round Rear Receiver Savage Model 116 Long Action Round Rear Receiver

Stevens Model 200 Long Action Round Rear Receiver This mount does not fit:
Savage Edge Savage Axis Savage Axis II Savage Model 25 Savage Long
Actions with Flat Rear Receivers Savage Medium Actions with Flat Rear
Receivers Savage Long Actions Drilled for #8 Screws

HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this manual carefully before installation and use to maximize safety and performance.

General Safety Guidelines

- **Product Safety:** This product is designed for safe use. However, improper handling or installation may lead to accidents. Always follow the instructions provided in this manual.
- **Enhanced Recalls:** In the event of a safety concern or recall, please stay informed through official channels. You can check for updates regarding this product.
- **Online Shopping:** Ensure you purchase this product from authorized retailers to guarantee compliance with safety standards.
- **Special Consumer Focus:** This product is not intended for use by children or individuals who may not understand its operation. Keep it out of reach of children.
- **EU Contact Point:** For any safety inquiries, refer to the product packaging or retailer for contact details.
- **Rapid Alerts:** Stay updated on product safety through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to scope misalignment or detachment.
 - Use of incorrect screws can compromise mount stability.
- **Avoiding Hazards:**
 - Always measure the screw size before installation to ensure compatibility.
 - Use the recommended torque settings during installation to prevent damage.
 - Ensure that the mount is securely attached before each use.
- **Audience Specific Warnings:**
 - This product is not suitable for individuals under 18 years of age.
 - Individuals with limited mechanical skills should seek assistance during installation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and the appropriate screws.
- Ensure you have a clean and well-lit workspace.

2. Measuring Screws:

- Before installation, remove and measure one of the screws from your receiver to confirm the size.
- This mount is drilled for 648 Hex Head screws and may require 840 screws for some Savage models.

3. Installation Steps:

- Align the mount with the receiver, ensuring it fits securely.
- Insert the screws into the designated holes.
- Use a torque wrench to tighten the screws to 20 inch lbs.

- Apply a drop of blue Loctite (sold separately) to the screws for added security.

4. PostInstallation Check:

- Verify that the mount is stable and does not shift.
- Check the alignment of your scope rings and accessories.

5. Usage:

- Regularly inspect the mount and screws before each use.
- If you notice any signs of wear or looseness, retighten or replace screws as necessary.

Disposal Instructions

- Dispose of packaging materials and any unused screws in accordance with local regulations.
- Do not dispose of the mount in regular household waste. Instead, check with local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the installation, usage, or safety of the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT, please contact the retailer from whom you purchased the product for assistance.

Thank you for prioritizing safety while using the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT. Your adherence to these guidelines will help ensure a safe and enjoyable experience.
