

TIN COATED DRILL BIT - BROWNELLS DRILL BIT, TIN COATED, #28, 0.14"

Stays Sharper Longer For Accurate Drilling

BROWNELLS TiN COATED DRILL BIT The Brownells TiN Coated Drill Bit delivers the precision, durability, and performance needed for gunsmithing, firearm maintenance, machining, and general shop applications. Featuring a Titanium Nitride (TiN) coating, these drill bits reduce friction, improve wear resistance, and help extend tool life for consistent drilling performance. The jobber-length design provides versatility for a wide range of drilling tasks, while precision-ground cutting edges help produce clean, accurate holes. Whether you're installing sights, preparing holes for tapping, performing firearm modifications, or tackling workshop projects, the Brownells TiN Coated Drill Bit offers the reliability and accuracy trusted by professional gunsmiths and DIY enthusiasts alike.

FEATURES Titanium Nitride (TiN) coating enhances durability and wear resistance Reduces friction and heat buildup during drilling Precision-ground cutting edges for accurate hole placement Jobber-length construction for versatile use Ideal for gunsmithing, firearm repair, and customization Available in multiple numbered and fractional sizes

BENEFITS Longer service life than standard uncoated drill bits Produces cleaner, more accurate holes Improves drilling efficiency and consistency Excellent for firearm maintenance, shop projects, and machining applications rusted performance for both professional and hobbyist users

SPECIFICATIONS Product Type: Drill Bit Coating: Titanium Nitride (TiN) Length Style: Jobber Length Application: Gunsmithing, Machining, General Shop Use Available Sizes: Multiple Numbered and Fractional Sizes

Attributes

- Name: BROWNELLS DRILL BIT, TIN COATED, #28, 0.14"
- Manufacturer: BROWNELLS
- Product no.: 361651028
- Mfr. No.:
- Bit Size: 0.14
- Material: Steel
- Model Number: #28
- Style: Coated Drill Bits
- Delivery weight: 0.005kg
- UPC: 050806030374

Safety Instruction Guide for Brownells TiN Coated Drill Bit

Introduction

Thank you for choosing the Brownells TiN Coated Drill Bit. This guide provides essential safety instructions to ensure safe use and maintenance of the product. Please read and understand these guidelines before using the drill bit.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the drill bit.
- Ensure that the workspace is clean, welllit, and free of any hazards.
- Keep the drill bit out of reach of children and unauthorized users.
- Always inspect the drill bit before use for any signs of damage or wear.
- Follow all local regulations regarding tool use and safety.

Specific Safety Precautions for Use

- Use the drill bit only for its intended purpose, which is drilling holes in materials suitable for steel drill bits.
- Do not exceed the recommended speed and feed rates for the drill bit to prevent overheating and damage.
- Avoid using the drill bit on hard materials that exceed its rated capacity.
- Ensure that the workpiece is securely clamped or held in place to prevent movement during drilling.
- Do not attempt to drill into materials that may contain hazardous substances, such as asbestos.
- If you experience any unusual vibrations or noises while using the drill bit, stop immediately and inspect the tool.

Instructions for Installation and Usage

1. Installation:

- Ensure the drill is unplugged or powered off before installing the drill bit.
- Insert the drill bit into the drill chuck, ensuring it is securely tightened.
- Check that the drill bit is straight and aligned properly.

2. Usage:

- Position the drill bit at the desired drilling location on the workpiece.
- Start the drill at a low speed to create a pilot hole if necessary.
- Gradually increase the speed as you drill, applying consistent pressure.
- Withdraw the drill bit periodically to remove debris and cool the bit.
- Once the hole is drilled, release the trigger and allow the drill to come to a complete stop before removing the bit.

Disposal Instructions

- Dispose of the drill bit in accordance with local regulations for metal waste.
- Do not dispose of the drill bit in regular household waste.
- If the drill bit is damaged or worn out, consider recycling options available in your area.

Contact Information for Further Support

For safety inquiries or further information regarding the Brownells TiN Coated Drill Bit, please refer to the product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells TiN Coated Drill Bit. Thank you for your attention to these important guidelines.
