

TIN COATED DRILL BIT - BROWNELLS DRILL BIT, TIN COATED, 3/16"

Stays Sharper Longer For Accurate Drilling

BROWNELLS TiN COATED DRILL BIT The Brownells TiN Coated Drill Bit delivers the precision, durability, and performance needed for gunsmithing, firearm maintenance, machining, and general shop applications. Featuring a Titanium Nitride (TiN) coating, these drill bits reduce friction, improve wear resistance, and help extend tool life for consistent drilling performance. The jobber-length design provides versatility for a wide range of drilling tasks, while precision-ground cutting edges help produce clean, accurate holes. Whether you're installing sights, preparing holes for tapping, performing firearm modifications, or tackling workshop projects, the Brownells TiN Coated Drill Bit offers the reliability and accuracy trusted by professional gunsmiths and DIY enthusiasts alike.

FEATURES Titanium Nitride (TiN) coating enhances durability and wear resistance Reduces friction and heat buildup during drilling Precision-ground cutting edges for accurate hole placement Jobber-length construction for versatile use Ideal for gunsmithing, firearm repair, and customization Available in multiple numbered and fractional sizes

BENEFITS Longer service life than standard uncoated drill bits Produces cleaner, more accurate holes Improves drilling efficiency and consistency Excellent for firearm maintenance, shop projects, and machining applications rusted performance for both professional and hobbyist users

SPECIFICATIONS Product Type: Drill Bit Coating: Titanium Nitride (TiN) Length Style: Jobber Length Application: Gunsmithing, Machining, General Shop Use Available Sizes: Multiple Numbered and Fractional Sizes

Attributes

- Name: BROWNELLS DRILL BIT, TIN COATED, 3/16"
- Manufacturer: BROWNELLS
- Product no.: 361651187
- Mfr. No.:
- Bit Size: 3/16
- Material: Steel
- Model Number: 3/16
- Style: Coated Drill Bits
- Delivery weight: 0.009kg
- UPC: 050806022799

Safety Instruction Guide for Brownells TiN Coated Drill Bit

Introduction

Thank you for choosing the Brownells TiN Coated Drill Bit. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the drill bit to avoid potential hazards and to ensure compliance with EU safety regulations.

General Safety Guidelines

- Always use personal protective equipment (PPE) such as safety glasses and gloves when operating the drill bit.
- Ensure the work area is clean and welllit to prevent accidents.
- Keep the drill bit out of reach of children and unauthorized users.
- Do not use the drill bit for any purpose other than its intended use.
- Inspect the drill bit for any damage before each use. Do not use if damaged.
- Follow all local regulations regarding the use of power tools and drill bits.

Specific Safety Precautions for Use

- Ensure the drill bit is compatible with your drill and the material you are working with.
- Secure the workpiece properly to prevent movement during drilling.
- Do not apply excessive force while drilling; let the drill bit do the work.
- Avoid wearing loose clothing or accessories that could get caught in the drill.
- Be cautious of sharp edges and chips produced during drilling.
- Maintain a safe distance from others while operating the drill.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and PPE before starting.
- Ensure the drill bit is clean and free of debris.

2. Installation:

- Insert the drill bit into the chuck of the drill.
- Tighten the chuck securely to hold the drill bit in place.

3. Usage:

- Position the drill bit at the desired location on the workpiece.
- Start the drill at a low speed to create a pilot hole if necessary.
- Gradually increase the speed while applying steady pressure.
- After drilling, release the trigger and allow the drill bit to come to a complete stop before removing it from the workpiece.

4. PostUsage:

- Clean the drill bit after use to remove any debris.
- Store the drill bit in a safe place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the drill bit in accordance with local regulations for metal waste.
- Do not dispose of the drill bit in regular household waste.
- Consider recycling the drill bit if possible.

Contact Information for Further Support

For any safety inquiries or further information regarding the Brownells TiN Coated Drill Bit, please reach out to the appropriate EU contact point.

This safety instruction guide has been designed to help you use the Brownells TiN Coated Drill Bit safely and effectively. By following these guidelines, you can minimize risks and enjoy a successful drilling experience. Thank you for your attention to safety.
