## Finger-Grooved, Palmswell Design For A Solid, Hand-Filling Grip

One-piece construction keeps the grip rock-solid on the frame - no shift or wobble to destroy concentration and accuracy. Ergonomic design positions right- or left-hand exactly, shot after shot; plus helps absorb recoil. Nylon and rubber grips feature a stippled surface that stops hand slip without causing clothing wear when carried in a holster. Rubber, Round-To-Square grips give the appearance and feel of a comfortable, hand-filing square grip on factory, round-grip frames.
