

SLIDE BUILD KITS FOR GLOCK 17® - BROWNELLS SLIDE BUILD KIT FOR GLOCK 17 THREADED

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

The perfect set to build your own Glock 17~. Choose from the Brownells threaded on non-threaded barrels as well as a standard slide or a windowed slide. All sets come with an RMR Cut Slide, Barrel, RMR Plate, Sights, and a Parts Kit to finish out the slide for your build! The limited production Brownells Brown RMR Slide for Glock® 17 Gen3 pistols features a pre-cut slot for easy, secure, low-profile mounting of a Trijicon RMR or Holosun red dot sight. Up front, there are distinctive, cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. And we'll admit it: the serrations just look cool, too. All RMR Slides also have standard Glock® factory front and rear sight dovetails for "iron" sights. To get proper co-witnessing with the RMR, you will need to also install suppressor-height iron sights. These limited production Brownells Brown slides for the Glock® 17 Gen3 come with a "window" cutout on top between the front serrations that enhances airflow to keep the barrel cooler - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) the window lets you show it off a bit! A Brownells RMR Slide is the ideal upgrade for your factory Glock® 17 Gen3 OR the perfect "top half" for a brand-new custom gun built on a Polymer80 80% frame. Fits Gen3 Glock® 17 pistols & clones Built-in Trijicon RMR mounting slot Also accepts Holosun HE508T, HS507C & HS407C red dot sights Factory front/rear iron sight cuts, too Machined from corrosion-resistant 17-4 stainless steel billet Each RMR Slide for Glock® starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll accept factory or aftermarket barrels and internal parts. Each slide is heat-treated to Rc 41-44 on the Rockwell C scale for added surface hardness and wear resistance. The Brownells Brown slide is a limited production and once they are gone, they're gone. Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335 Our Match-Grade Barrel for the Glock® 17 fits ALL generations of G17, Gen1 through Gen5. It's an excellent replacement for a shot-out factory barrel or for completing a pistol based on the G17 platform. And it's the ideal tube for a custom gun built on a Polymer80 frame with a Brownells RMR Slide on top! Each Brownells Match-Grade Barrel for Glock® 17 is machined from hardened 416R stainless steel to precise dimensions, so it's a drop-in fit on most guns. The tight lockup helps ensure superb accuracy, too. The extra-hard Black Nitride finish resists surface wear and stops in its tracks whatever corrosion might try to challenge the stainless steel. This 9mm Luger (9x17mm) chambered barrel is button-rifled with standard, 1-10" right-hand, 6-groove rifling that is compatible with "practice" ammo with non-jacketed bullets. Fits Glock® 17 Gen1 thru Gen5 Button-rifled 1-10" twist 416R stainless steel Non-reflective Black Nitride anti-corrosion finish Threaded model available with 1/2"-28 tpi threads Our match barrel for Glock® 17 is available with either a Plain muzzle with an 11-degree target crown or Threaded (1/2"-28 tpi) to enable installation of a compensator or sound suppressor. Both are laser-engraved with the chambering and the Glock model it fits.

Attributes

- Name: [BROWNELLS SLIDE BUILD KIT FOR GLOCK 17 THREADED](#)

SLIDE BUILD KITS FOR GLOCK 17® CONSUMER SAFETY INSTRUCTIONS

Introduction

Thank you for purchasing the SLIDE BUILD KIT FOR GLOCK 17® from Brownells. This guide provides essential safety instructions to ensure the safe use and installation of your product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before use.

General Safety Guidelines

- Always handle firearms and firearm components with care and responsibility.
- Ensure that the product is used only as intended, following all manufacturer instructions.
- Keep this product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about any recalls or safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Firearm Compatibility:** Ensure that the SLIDE BUILD KIT is compatible with your specific Glock model (Glock® 17 Gen3).
- **Installation:** Only qualified individuals should attempt to install or modify firearm components. Improper installation can lead to malfunctions or accidents.
- **Use of Optics:** When using the RMR Slide, ensure that the red dot sight is securely mounted and properly zeroed.
- **Sights:** For co-witnessing with the RMR, install suppressor-height iron sights to ensure optimal performance.
- **Cocking Serrations:** Use the cocking serrations to manipulate the slide safely. Avoid placing fingers in the ejection port during operation.
- **Barrel Care:** Regularly clean and maintain the barrel to ensure reliable performance and accuracy.
- **Threaded Barrel:** If using a threaded barrel, ensure that any attached compensators or suppressors are securely fastened.
- **Ammunition:** Use only recommended ammunition types compatible with the Glock® 17 to avoid malfunctions.

Instructions for Installation and Usage

1. **Preparation:** Gather all necessary tools and components before beginning the installation process.
2. **Disassembly:** Follow the manufacturer's instructions to safely disassemble your Glock® 17.
3. **Slide Installation:**
 - Remove the existing slide from the frame.
 - Align the new RMR Cut Slide with the frame and ensure it fits securely.
 - Install the channel liner using the recommended tool (#777100017).
4. **Barrel Installation:**
 - Insert the matchgrade barrel into the slide.
 - Ensure it is seated properly and aligned.
5. **Sights Installation:**
 - Install the sights as per the manufacturer's specifications, ensuring they are properly aligned.
6. **Final Checks:**
 - Perform a function check to ensure smooth operation of the slide and barrel.
 - Verify that all components are securely installed before use.
7. **Usage:** After installation, handle the firearm in a safe manner and follow all safety protocols for shooting.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the product becomes damaged or is no longer usable, dispose of it in accordance with local regulations for hazardous materials, if applicable.

Contact Information for Further Support

For any questions or concerns regarding the SLIDE BUILD KIT FOR GLOCK 17®, please refer to the manufacturer's support resources.

By following these guidelines and instructions, you can ensure a safe and enjoyable experience with your SLIDE BUILD KIT FOR GLOCK 17®. Always prioritize safety and responsibility when handling firearms and related components.
