

SMR REM 700 SS ACTION SCREW SET - SNOWY MOUNTAIN RIFLE COMPANY SMR REM 700 SS ACTION SCREW SET

[Rifle Parts](#) > [Triggers Parts](#) > [Trigger Guard Parts](#) > [Trigger Guard Screws](#)

Snowy Mountain Rifles action screws are 100% USA made in house in their Montana facility, and are the lightest and strongest action screws on the market. Made of either high tensile 303 stainless or Grade 5 titanium. They feature an extra deep 5/32 hex head and will withstand more than double the suggested 65-in-lb torque spec for most custom actions and stocks. SMR action screws come extra long and are meant to be cut to fit for different depth stocks and actions, we also make sure to add extra threads for maximum thread engagement and strength. All of their action screws featured rolled threads, unlike tradition cut threads this adds even more strength by moving the material to create the threads, rather than cutting material away. The center section is turned down for added clearance between the screws and pillars and adds a sleek design while reducing overall weight. The 2 piece set includes (1) ¼-28 x 1-1/2 and (1) ¼-28 x 1-3/4

Attributes

- Name: [SNOWY MOUNTAIN RIFLE COMPANY SMR REM 700 SS ACTION SCREW SET](#)
- Manufacturer: [SNOWY MOUNTAIN RIFLE COMPANY](#)
- Product no.: 430103146

SMR REM 700 SS ACTION SCREW SET Safety Instruction Guide

Introduction

Thank you for choosing the SMR REM 700 SS ACTION SCREW SET from Snowy Mountain Rifle Company. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully to understand how to handle, install, and maintain your action screws properly.

General Safety Guidelines

- Ensure that you are familiar with the operation and handling of firearms before using this product.
- Always follow the manufacturer's instructions and guidelines for your specific firearm model.
- Store the action screws in a dry and safe location, away from children and pets.
- Inspect the action screws for any signs of damage or wear before each use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- Only use the SMR REM 700 SS ACTION SCREW SET with compatible firearms, specifically Remington 700 models.
- Do not exceed the recommended torque specifications of 65inlb when installing the action screws.
- Use proper tools (5/32 hex head) to avoid stripping the screw head or causing injury.
- Ensure that the screws are securely fastened before using the firearm.
- Avoid using the action screws in any manner that is not intended by the manufacturer.
- If you are unsure about the installation or use of the action screws, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Gather the necessary tools, including a 5/32 hex wrench and a suitable cutting tool for trimming screws.
- Ensure your firearm is unloaded and in a safe condition before beginning installation.

2. Installation Steps

- Determine the required length for the action screws based on your firearm's stock and action depth.
- Using a cutting tool, trim the screws to the desired length if necessary.
- Align the action screws with the mounting holes on your firearm.
- Using the 5/32 hex wrench, carefully tighten the screws to the recommended torque specification of 65inlb.
- Check to ensure that the screws are secure and properly seated.

3. PostInstallation

- After installation, perform a function check on your firearm to ensure everything is operating correctly.
- Regularly inspect the screws for tightness and any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn action screws responsibly.
- Follow local regulations for the disposal of metal materials.
- Do not dispose of the product in household waste. Instead, consider recycling options where available.
