KEY FEATURES OPTIC READY FOR MICRO RDS Red dot sights (RDS) are hugely popular, and the TX22 Compact comes ready from the factory to accept Holosun K-footprint optics. SERRATED REAR SIGHT AND WHITE DOT FRONT For the traditionalists, the TX22 Compact's iron sights feature a high-contrast white dot on the front sight, and a serrated rear sight to cut down on glare. SLIDE LIGHTNING CUTS Adding the weight of an optic would affect reliability on most rimfire pistols, but the TX22 takes that into account by reducing the weight in the slide with proprietary slide lightening cuts. MIL-STD 1913 ACCESSORY RAIL As is fitting the most modern compact .22 LR pistol, the TX22 features a 1913 pattern accessory rail for mounting weapon mounted lights or other gear. SUPPRESSOR READY BARREL The alloy steel barrel is threaded for suppressors out of the box. STRIKER FIRED ACTION A modern .22 deserves a modern firing system, and the TX22 Compact brings shooters a smooth trigger pull with a crisp break thanks to its striker fired action. EASY-TO-RACK SLIDE
