

BAG RIDER FOR ARISAKA STOCK ANGLE ADAPTER SL, BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

The Bag Rider SL is a bolt on addition to the Arisaka Stock Angle Adapter SL that provides additional functionality with three important features: Provides greater surface area for riding on top of rear rifle bags. Provides a hooked rear surface to facilitate modern precision shooting techniques by providing the support hand a solid point of contact on the rifle stock. Adds a bottom facing QD sling mount socket for competition use, allowing the user to attach a bag to the rear of the rifle quickly and easily. Mike Olivella from Praecore Performance was the catalyst for the Stock Angle Adapter and the inspiration for the Bag Rider: The Stock Angle Adapter is the first installment in a series of precision rifle focused, ergonomic upgrades. The geometry of most popular carbine stocks support a variety of shooting techniques and work well within those requirements. However, when Mike takes a look at any modern, precision focused bolt gun chassis, he notes that all of them feature a 90 degree angle for the recoil pad. This isn't by accident. This geometry promotes greater contact surface area for one of the critical alignment components of a shooter's position behind the rifle. Arisaka took my requirements and went a step further by incorporating a simple and lightweight solution to the critical fitting components of recoil pad height and cant. Different optic mount and shooter requirements have shown in testing there is almost no wrong configuration, but I do have my favorites. The finishing touch that can't be overlooked is how Arisaka made this accessory to not only work with a few common carbine stocks but also allowed it to accept a popular aftermarket recoil pad. For gas gun precision rifle shooters, this upgrade offers your rifle a lightweight, custom fit solution for your recoil pad with an extra bump up in surface area for your rear support. Weight: 3 oz The adapter is CNC machined from 6061-T651 aluminum and MIL-A-8625 Type III hard coat anodized. This Part Requires the Arisaka Stock Angle Adapter SL Made in the USA.

Attributes

- Name: [BAG RIDER FOR ARISAKA STOCK ANGLE ADAPTER SL, BLACK](#)
- Manufacturer: [ARISAKA DEFENSE](#)
- Product no.: 430104547

Safety Instruction Guide for Bag Rider for Arisaka Stock Angle Adapter SL

Introduction

Thank you for choosing the Bag Rider for Arisaka Stock Angle Adapter SL. This product is designed to enhance your shooting experience by providing additional support and functionality. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** Always ensure that the product is used according to the instructions provided. This product is designed for nonfood use and should be handled with care.
- **Enhanced Recalls:** Stay informed about any product recalls. In the unlikely event of a recall, you will be notified about the necessary actions to take.
- **Online Shopping Safety:** If you purchased this product online, ensure that the platform meets safety requirements similar to physical stores.
- **Special Consumer Focus:** Extra care should be taken when the product is used by or around vulnerable groups, such as children. Ensure that children do not play with the product.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for this product.
- **Rapid Alerts:** Keep updated on product safety alerts through the EU Safety Gate system.

Specific Safety Precautions for Use

- **Inspection:** Before each use, inspect the Bag Rider for any signs of damage or wear. Do not use if any parts are damaged.
- **Proper Attachment:** Ensure that the Bag Rider is properly attached to the Arisaka Stock Angle Adapter SL before use. A loose or improperly attached accessory can lead to accidents.
- **Shooting Position:** Maintain a stable shooting position when using the product. Ensure that your hands and body are in a safe position to avoid injury.
- **Weight Considerations:** The Bag Rider weighs 3 oz. Ensure that your setup can accommodate this additional weight without compromising stability.
- **Sling Mount Usage:** When using the bottomfacing QD sling mount socket, ensure that the sling is securely attached and that it does not interfere with your shooting stance.

Instructions for Installation and Usage

Installation

1. **Prepare the Adapter:** Ensure that the Arisaka Stock Angle Adapter SL is attached to your rifle stock.
2. **Align the Bag Rider:** Position the Bag Rider so that it aligns with the mounting points on the Stock Angle Adapter.
3. **Secure the Attachment:** Use the provided hardware to securely attach the Bag Rider to the adapter. Ensure that all screws are tightened properly.
4. **Final Inspection:** After installation, inspect the connection to ensure there are no loose parts.

Usage

- **Riding on Bags:** When using the Bag Rider, place the rear of your rifle on a rear rifle bag. Ensure that the surface area is stable.
- **Support Hand Positioning:** Use the hooked rear surface to establish a solid point of contact for your support hand.
- **Sling Attachment:** If using a sling, attach it to the QD socket before positioning the rifle for shooting.

Disposal Instructions

- **Environmental Considerations:** Dispose of the Bag Rider and any packaging materials in accordance with local regulations.
- **Recycling:** If possible, recycle the aluminum material of the Bag Rider. Check with local recycling programs for acceptable practices.

Contact Information for Further Support

For any questions or concerns regarding the Bag Rider for Arisaka Stock Angle Adapter SL, please refer to the designated EU contact point for this product.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our top priorities. Enjoy your shooting experience!
