

ECHO ZULU CASTLE NUT KIT - TANGO UNIFORM ECHO ZULU CASTLE NUT KIT

[Rifle Parts](#) > [Receiver Parts](#) > [Buffer Tube Parts](#) > [Buffer Tube Hardware](#)

Echo Zulu Starter Kit Stake your AR's castle nuts faster & more consistently with Tango Uniform's new Echo Zulu Castle Nut System. This Starter Kit Includes: one EZ castle nut, a bi-directional staking guide, and a straight-wall staking punch. The patent pending EZ castle nut is made from premium 4140 PH alloy steel and finished in long duration, diamond hard black nitride. It was precision machined on a modern Swiss CNC lathe, to tolerances that meet or exceed the mil-spec TDP, including true class 3 threads. The EZ castle nut features eight co-linear wrench & staking notches, allowing for easier visual alignment, and multiple staking locations with even the largest end plates. The bi-directional staking guide is injection molded from premium glass-filled nylon for enhanced durability. Its small, symmetrical design allows it to index around most QD end plate designs. The included staking punch has a straight-wall design so it won't tilt inside the bi-directional staking guide. It's made from 17-4 stainless steel and finished in long duration, diamond hard black nitride. The punch's 4mm shank is standard for most off-the-shelf spring loaded center punches. The straight-wall staking punch and precision staking guide work in tandem with the unique EZ castle nut design, allowing for strong, consistent staking with minimal risk of damaging other components.

Attributes

- Name: [TANGO UNIFORM ECHO ZULU CASTLE NUT KIT](#)
- Manufacturer: [TANGO UNIFORM](#)
- Product no.: 430104717
- Mfr. No.: ECHO ZULU CASTLE NUT KIT

ECHO ZULU CASTLE NUT KIT SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the ECHO ZULU CASTLE NUT KIT from TANGO UNIFORM. This document provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use to understand the safety precautions and installation procedures.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product specifications.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling tools and components.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents and injuries.
- Regularly inspect the product for signs of wear or damage. Do not use if damaged.
- Follow all local regulations regarding the use and disposal of tools and hardware.

Specific Safety Precautions for Use

- Use the EZ castle nut only with compatible AR15 buffer tube assemblies to avoid improper fit and potential failure.
- Ensure the bidirectional staking guide is properly aligned before use to prevent misalignment and damage to components.
- When using the staking punch, apply even pressure to avoid slipping or damaging the castle nut or surrounding components.
- Never modify the EZ castle nut or any included tools, as this can compromise safety and functionality.
- Store the kit in a dry, secure location away from moisture and extreme temperatures.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools including the EZ castle nut, bidirectional staking guide, and straightwall staking punch.
- Ensure you are working in a clean, welllit area free from distractions.

2. Installation:

- Begin by securing the buffer tube in the lower receiver of the AR15.
- Place the EZ castle nut over the buffer tube and handtighten it to ensure proper fit.
- Align the staking guide with the staking notches on the EZ castle nut.

3. Staking Process:

- With the staking guide in place, use the straightwall staking punch to stake the castle nut.
- Apply firm, even pressure to the punch to create a secure stake without damaging the castle nut or buffer tube.
- Check the alignment and ensure the castle nut is securely fastened.

4. Final Inspection:

- After staking, visually inspect the installation to confirm that everything is secure and properly

aligned.

- Test the assembly by gently pulling on the buffer tube to ensure it is locked in place.

Disposal Instructions

- Dispose of any damaged or unused components in accordance with local regulations.
- Recycle materials when possible, following your local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or assistance regarding the ECHO ZULU CASTLE NUT KIT, please refer to the official TANGO UNIFORM website or contact your local distributor for support.

By following these safety instructions, you can ensure a safe and effective experience with the ECHO ZULU CASTLE NUT KIT. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention and enjoy your product!
