The MOD 3-KD is the end result of collaboration between BCM and Kyle Defoor, founder of Defoor Proformance Shooting. Reduced Grip angle keeps wrist in line with trigger for improved ergonomics and trigger control. Short/Low-profile design ideal for sub-compact carbine/pistol configurations. Same amount of protrusion, from the bottom of the weapon, as the classic 20-round magazine. Externally dimensioned the same, except the length, as the popular BCMGUNFIGHTER Mod 3 Grip Each grip features an extended forward tang to close the gap between the trigger guard and pistol grip, and a high rise "beavertail" style back strap. Made in the U.S.A., manufactured from high quality impact resistant polymers.
