S3 Sling (Silent Strategic System) When Strike Industries began the design and development of the S3 Silent Strategic Sling Strike Industries meticulously researched process with the intent of creating a one of a kind sling system that gave the user both the strength and flexibility they require, coupled with seamless stealthy operational functions. Thus, they constructed a Nylon based sling with Kevlar loop attachments that cancel out any noise from friction of contact points. They've also added nylon covering over the YKK Hamerloc buckles to mask the sound of a quick detachment. They have put the sling through a series of rigorous stress tests to give the user powerful sling attachments that can withstand over 300 lbs. of force without give away any pliability. The S-3 is designed for optimal comfort, strength, and the guaranteed sustention of the element of surprise! Product Features: Nylon webbing is 1000D Kevlar loop attachment points, can withstand more than 300lbs of force YKK Hamerloc buckles Double Stitched for added reinforcement Easily adjusts to be used as a two point sling or one point sling Buckles are covered to conceal any sound or any light reflection Package Contents: x1 S3 Sling S3 Sling PRO Padded The S3, Silent Strategic Sling, was created with simplicity and stealth in mind. However, the lightweight sling isn't always ideal for extended carry, or for heavier weapon systems. For those that don't mind a little extra bulk, the S3 PRO is perfect for those looking for an ultra comfortable sling. Just like the original S3 Sling, the S3 Pro features silent operations, while adding a padded rear section to distribute weight. Additionally, the S3 PRO features an integrated elastic storage section ideal for tourniquet storage. Give your shoulder a break with the S3 Pro Padded Sling Product Features: Nylon webbing is 1000D. YKK Hamerloc buckles Double Stitched for added reinforcement Easily adjusts to be used as a two point sling or one point sling Comfortable padded shoulder section Tourniquet storage WARNING: Before every use, always check proper function of your sling and any wear and tear from use Always have your weapon in the SAFE position when not being fired Always follow all firearms safety rules and never point your weapon at anything you are not willing to destroy Package Contents: x1 S3 Pro Padded Sling -CALIFORNIA PROPOSITION 65 WARNING:- WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. SIS3 (Silent Strategic System) Sling Safety Instructions

Introduction

Thank you for choosing the SIS3 Sling (Silent Strategic System) by Strike Industries. This product has been designed with safety, comfort, and functionality in mind. Please read and follow these safety instructions carefully to ensure safe use and optimal performance.

General Safety Guidelines

- Always inspect the sling for any signs of wear, damage, or malfunction before each use.
- Ensure that the sling is properly attached to your weapon before use.
- Always keep your weapon in a safe position when not in use.
- Follow all firearms safety rules and never point your weapon at anything you are not willing to destroy.
- Keep this product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Weight Limit:** The S3 Sling can withstand over 300 lbs of force. Do not exceed this limit to avoid failure.
- **Noise Management:** The sling features noisecanceling attachments. Ensure that all components are correctly positioned to maintain stealth functionality.
- **Comfort:** The S3 Pro Padded Sling includes a padded shoulder section. Ensure that the padding is properly adjusted to avoid discomfort during extended use.
- **Elastic Storage:** For the S3 Pro model, use the integrated elastic storage section only for compatible items, such as a tourniquet. Do not overload this section.

Instructions for Installation and Usage

1. Installation:

- Attach the Kevlar loop attachment points to your weapon's designated sling mounts.
- Ensure that the YKK Hammerlock buckles are securely fastened and that the nylon covering is in place to minimize noise during operation.

2. Adjusting the Sling:

- To adjust the sling for use as a twopoint or onepoint sling, locate the adjustment sliders and pull to achieve the desired length.
- Ensure that the adjustments are secure before use.

3. Using the Sling:

- For twopoint sling use, position the sling across your body, ensuring that it distributes weight evenly on both shoulders.
- For onepoint sling use, attach the sling to a single point on your weapon and adjust the length for comfort and accessibility.

4. PostUse Care:

- After use, inspect the sling for any signs of wear or damage.
- Store the sling in a cool, dry place away from direct sunlight to prolong its lifespan.

Disposal Instructions

- Dispose of the sling in accordance with local regulations.
- Do not dispose of the sling in regular household waste if it contains hazardous materials.
- Consider recycling options for the nylon and Kevlar materials if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the SIS3 Sling, please contact the manufacturer or refer to the product packaging for additional support resources.

Regulatory Compliance

This product complies with the EU General Product Safety Regulation (GPSR). It has been designed to ensure safety and minimize risks associated with its use. Always adhere to the safety guidelines provided to maintain compliance and ensure safe operation.

Thank you for your attention to these safety instructions. Enjoy using your SIS3 Sling!
