HIT Target Impact Indicator Safety Instructions

Introduction

Thank you for choosing the HIT Target Impact Indicator. This product is designed to enhance your shooting experience by providing a clear indication of bullet impact on steel targets. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always supervise children when using or handling this product.
- Regularly check the product for wear and tear. Do not use if damaged.
- Follow all local laws and regulations related to shooting and target practice.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Visibility:** The HIT Target Impact Indicator is designed to be visible up to 1000+ yards under optimal conditions. Weather may affect visibility.
- **Installation:** Ensure the indicator is securely attached to the target stand using the included elastic band to prevent it from falling or being dislodged during use.
- **Bullet Vibration Activation:** The device uses an accelerometer to detect bullet vibrations. Ensure that the device is positioned correctly to activate upon impact.
- **Rechargeable Battery:** Use only the provided microUSB cable for recharging. Do not attempt to charge with incompatible chargers.
- **Morse Code Indicator:** The device blinks "HIT" to indicate impact. Familiarize yourself with this signal for effective usage.

Instructions for Installation and Usage

1. Installation:

- Locate a suitable steel target stand.
- Use the included elastic band to securely attach the HIT Target Impact Indicator to the stand.
- Ensure it is positioned where it can easily detect bullet impacts.

2. Usage:

- Before shooting, check that the device is properly installed and functioning.
- Shoot at the target as intended. The device will activate upon detecting bullet impact.
- Observe the blinking light to confirm the hit.

3. Recharging:

- When the indicator shows a low battery, connect it to a power source using the microUSB cable.
- Allow the device to charge fully before using it again.

Disposal Instructions

- Dispose of the HIT Target Impact Indicator in accordance with local regulations.
- Do not dispose of electronic waste in regular household trash.
- Consider recycling options for electronic components where available.

Contact Information for Further Support

For safety inquiries or product support, please refer to the manufacturer's website or customer service for assistance. Always ensure you have the latest safety updates and product information.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with the HIT Target Impact Indicator. Always prioritize safety and report any concerns regarding the product to the relevant authorities. Thank you for your attention to these important guidelines.
