

# TORRENT LIGHT MOUNT - CLOUD DEFENSIVE TORRENT INLINE LIGHT MOUNT M-LOK BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Accessory Mounts](#)

The Cloud Defensive "Torrent series". Manufactured for us by Impact Weapons Components. The best, most versatile and strongest light mounts in the industry, at the best price. Depending on your needs, Cloud Defensive is confident they have a mounting option for you. Compatibility All Torrent mounts work with the Cloud Defensive REIN1.0/2.0/3.0 and REIN Micro 1.0/2.0/3.0 Works with all Surefire® M300 & M600 Scout lights® \*\*Except M600 AA\*\* Works with Streamlight® Protac Rail Mount 1, Rail Mount 2 and HL-X \*\*Except the Torrent Inline Mounts. These only work with the Rail Mount 1 and Rail Mount 2. NOT THE HL-X\*\* Works with most other replacement light bodies that use the Scout Light® mounts style. Durability CNC machined from Certified 6061-T6 billet aluminum Mil-Spec Type III Hardcoat anodized finish (black anodized per mil-spec mil-a-8652) Light Mount Features Torrent AFR M-Lok® The Torrent Africa mount is a specialized solution developed by Cloud Defensive and Impact Weapons Components at the request of Eco Defense Group and the Park Rangers of Kruger National Park in South Africa. It is a specialized offset mount that plays nicely with their FAL handguards. It also works great for the SCAR, MCX, MPX, AK, Scorpion and pretty much any other non-AR platform. The Torrent Africa mount also works great for AR rifles that incorporate a BE Meyers MAWL. The user can mount the Torrent Africa at the 430PM position on the rail and roll their weapon mounted light nicely underneath that MAWL. WEIGHT 0.600 Torrent Inline M-LOK® \*\*For Use With M-LOK® Rails\*\* Directly attaches to any M-LOK® compliant rail surface Ambidextrous with 7 total mounting solutions on 7 sided M-LOK® rail system 4 light mounting positions provide .265" of lateral adjustment Forward mounting design is low profile, lightweight and does not impede weapons manipulation Mount does not interfere with the operation of front back-up iron sights The Torrent Inline light mount is a very traditional mount which acts as a direct mounting option for your light. Instead of requiring a rail section to be added to you M-LOK® rail, you can use this mount. To provide the highest level of supporting structure, this mount should be attached in a way that it does not have any portion hanging off the rail. If it hangs off the rail, it does run a risk of being bent under pressure. The Inline mount plays well with most IR devices including the B.E. Meyers MAWL, L3 PEQ-15, L3 NGAL, Steiner DBAL and many others. WEIGHT 0.711 oz. Torrent Offset M-LOK® \*\*For Use With M-LOK® Rails\*\* 6 light mounting positions provide .626" of lateral adjustment to clear all laser aiming devices Positions the light as close to the firearm bore or APITAL as possible Offset mount positions light at optimized 45 degree angle for ergonomic activation Ambidextrous with 6 total mounting solutions on 3 sided M-LOK® rail system Low profile, lightweight and does not impede weapons manipulation Light mount does not interfere with the operation of front back-up iron sights The Torrent Offset M-LOK® mount is one of the strongest mounts that Cloud Defensive offer. This mount is normally attached to the rail at the 3 O'clock or 9 O'clock position and holds the light around the 1:30 and 10:30 positions, respectively. There are unique mounting options with this that make it a possibility for use with the previously mentioned IR devices as well. WEIGHT 0.653 oz Torrent SBR Picatinny Light Mount \*\*For Use With 1913 Picatinny Rails\*\* 3 light mounting positions provide .250" of lateral adjustment Cantilevered mounting design shifts light forward of mount, increasing usable rail space. Light offset optimized at a 45 degree offset for

ergonomic activation Ambidextrous with 8 total mounting solutions on 4 sided 1913 picatinny rail system Low profile, lightweight and does not impede weapons manipulation Positions the light as close to the firearm as possible Mount does not interfere with the operation of front back-up iron sights The Torrent SBR Picatinny Rail Light Mount is designed to push the light body forward and in fact uses the same body attachment style as the SBR M-LOK® but mounts to Picatinny instead of M-LOK®. Because of that, it provides the user with the ability to mount the light tighter to the rail on a Quad rail setup. You can run this mount on the top rail, hanging to the left or right of the rail. You can also run this on either side rail pushing the light up and in towards the barrel. WEIGHT 1.011 oz."

## Attributes

- Name: [CLOUD DEFENSIVE TORRENT INLINE LIGHT MOUNT M-LOK BLACK](#)
- Manufacturer: [CLOUD DEFENSIVE](#)
- Product no.: 430107164
- Mfr. No.: TOR-MLOKINLINE
- Finish: -
- Style: M-LOK
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 25mm
- UPC: 850016201386

# Safety Instructions for the Torrent Light Mount

## Introduction

Thank you for choosing the Torrent Light Mount series by Cloud Defensive. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your light mount. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that all components are intact and free from damage before installation.
- Follow all installation instructions carefully to avoid accidents.
- Only use the light mount with compatible devices as specified in the product description.
- Regularly inspect the light mount for any signs of wear or damage.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Compatibility:** Ensure that your light mount is compatible with the Cloud Defensive REIN series and other specified light models. Do not use with incompatible devices.
- **Installation:** Install the light mount securely to prevent it from coming loose during use. Follow the installation instructions provided in this guide.
- **Weight Limit:** Be aware of the weight limits of the light mount. Do not exceed the recommended weight to avoid failure.
- **Environmental Conditions:** Avoid using the light mount in extreme conditions that may affect its integrity, such as high heat, moisture, or corrosive environments.
- **Maintenance:** Regularly clean the light mount to remove dirt and debris that may affect its performance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have the necessary tools for installation.
- Identify the MLOK or Picatinny rail on your firearm where the mount will be installed.

### 2. Installation:

- For MLOK Rails:
  - Align the Torrent Inline or Offset MLOK mount with the desired position on the rail.
  - Securely attach the mount using the provided hardware. Ensure it is tightened properly.
- For Picatinny Rails:
  - Align the Torrent SBR Picatinny Light Mount with the desired position on the rail.
  - Securely attach the mount using the provided hardware. Ensure it is tightened properly.

### 3. Usage:

- Attach the compatible light to the mount following the manufacturer's instructions.
- Ensure the light is secured and properly positioned for optimal use.
- Test the mount and light setup before operational use to ensure everything is functioning correctly.

### 4. PostInstallation Check:

- After installation, check that the mount is securely fastened and that the light operates as expected.
- Perform a periodic check of the mount and light setup during regular maintenance.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding electronic waste and materials.
- If the product is no longer usable, consider recycling components where possible.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For safety inquiries or additional support, please contact the manufacturer or your local distributor.

By following these guidelines, you can ensure the safe and effective use of your Torrent Light Mount. Thank you for your attention to safety, and enjoy your product!
